"The importance of understanding corruption has never been so important as right now. This is the new go-to book on the topic."

—TYLER COWEN, Professor of Economics, GMU

"To tackle corruption we need to recognize that it is a symptom of a society in which incentives are distorted, control mechanisms are absent and norms are mis-calibrated. Anyone planning to delve into these issues would be well served by first studying what Fisman and Golden have to say."

—DARON ACEMOGLU, co-author of *Why Nations Fail* and  
Professor of Economics, MIT

THE DEBUT NOVEL OF AN ASTONISHING NEW VOICE IN PSYCHOLOGICAL SUSPENSE  
In Tana French's powerful debut thriller, three children leave their small Dublin neighborhood to play in the surrounding woods. Hours later, their mothers' calls go unanswered. When the police arrive, they find only one of the children, gripping a tree trunk in terror, wearing blood-filled sneakers, and unable to recall a single detail of the previous hours.

Twenty years later, Detective Rob Ryan—the found boy, who has kept his past a secret—and his partner Cassie Maddox investigate the murder of a twelve-year-old girl in the same woods. Now, with only snippets of long-buried memories to guide him, Ryan has the chance to uncover both the mystery of the case before him, and that of his own shadowy past.

**INEQUALITY IS A CHOICE.**

While we still call it a land of opportunity, the United States today lags behind most other developed nations in measures of inequality and economic mobility. Stagnating wages, skyrocketing health care and education costs, and deeply rooted structural discrimination have created an onerous environment for the majority of Americans. Some economists claim that these bleak conditions are inevitable consequences of market outcomes, globalization, and technological progress. This is simply not true. American inequality is the result of misguided structural rules that actually *constrict* economic growth. It's time to rewrite these rules—to curb the runaway flow of wealth to the top one percent, to restore security and opportunity for the middle class, and to foster stronger growth rooted in broadly shared prosperity.

"Stiglitz realizes that deepening inequality in our country is not an unlucky act of nature, but a consequence of the policies we have chosen. This lively book suggests a whole menu of policy changes to move us toward a more widely shared prosperity."

—ROBERT SOLOW, winner of the Nobel Prize

"The secret truth about economic inequality in America: once you look at the issue this way, it's hard to think of it any other way."

—TIME

"At a time when 25 hedge fund managers make more than all our nation's kindergarten teachers combined, it is clear that the rules are rigged in favor of the wealthy few. Joseph E. Stiglitz has proposed a bold plan to rewrite these rules by rebuilding our economy for the twenty-first century."

—RANDI WEINGARTEN, president of the American Federation of Teachers

‘Here is more than fine writing; here is what, added to fine writing, makes a book come immediately, intensely and brilliantly alive...a masterpiece’

Tennessee Williams

Hailed as a masterpiece from its first publication, *Revolutionary Road* is the story of Frank and April Wheeler, a bright young couple who are bored by the banalities of suburban life and long to be extraordinary. With heartbreaking compassion and clarity, Richard Yates shows how Frank and April's decision to change their lives for the better leads to betrayal and tragedy.

“Riveting, brilliant and emotionally rich . . .”

— *Kirkus Reviews*, starred

In the winter of 1953, Boy Novak arrives by chance in a small town in Massachusetts, looking, she believes, for beauty — the opposite of the life she’s left behind in New York. She marries a local widower and becomes stepmother to his winsome daughter, Snow Whitman.

A wicked stepmother is a creature Boy never imagined she’d become, but elements of the familiar tale of aesthetic obsession begin to play themselves out when the birth of Boy’s daughter, Bird, who is dark-skinned, exposes the Whitmans as light-skinned African-Americans passing for white. Among them, Boy, Snow, and Bird confront the tyranny of the mirror to ask how much power the reflective surfaces really hold.

'Terribly, terminally funny:  
laughter in the dark, if ever

I heard it' *Guardian*

This is the story of John Self, consumer extraordinaire. Rolling around New York and London, he makes deals, spends wildly and does reckless movie-world business, all the while grabbing everything he can to sate his massive appetites: alcohol, tobacco, pills, pornography, a mountain of junk food and more. Ceaselessly inventive and thrillingly savage, this is a tale of life lived without restraint; of money, the terrible things it can do and the disasters it can precipitate.
