Examination Including Internal Assessment

The University of Delhi reserves the right to make alteration in its Academic Schedule and examinations system at any stage in the duration of any or all of the programs.

1. Attendance: Subject to the provisions of Ordinance VII, the candidates are required to attend not less than two third of theory and practical/tutorial classes separately in all the subjects taken together held in the College in each semester/academic year.

2. Submission of Examination Forms

Candidates desiring to appear in the examination within the permitted span period and otherwise eligible are required to fill up the prescribed Examination Form.

- i) The Regular Students can collect the Examination Forms from the office of the Colleges and are required to deposit the same along with the prescribed fee at the Colleges within the dates prescribed.
- ii) The Ex-students (Students who have appeared & failed to pass the examination) are required to collect their examination forms from the concerned section of the Examination Branch of Delhi University and such students will be required to submit the examination form and ex-student registration form, duly completed in all respects and countersigned by the Principal of the College at the concerned examination enquiry window for verification. After verification, the candidates would be required to deposit prescribed examination fee with University Cashier and the Examination Form with the concerned window at the Examination Branch.
- iii) The students desirous of improving their performance in any paper as per the University Rules are required to produce their original statement of marks along with the Examination Form. The rules for the same are given in the University Calendar available on the University website (www.du.ac.in).

3. Span Period

Ordinarily, no student will be allowed to appear in the Examinations beyond the prescribed span period. For all the three year under-graduate courses under the

CBCS structure, the span period to complete the course will be 6 years from the year of admission in 1st Semester.

4. Examination Schedule

Tentative schedule for holding various examinations is given below: Undergraduate Courses (Formal Stream)-November/December and April/May.

5. Date Sheets

The Examination Branch issues separate Date Sheets for each under graduate course. Examinations for the courses covered under the semester scheme shall be held at the end of each semester in accordance with the academic calendar prescribed by the Academic Council from time to time. Unless otherwise provided specifically in any other Ordinance, there will be no supplementary examination for any of the semesters.

6. ORDINANCE VIII-E: Internal Assessment

- 1.1 The scheme for Internal Assessment shall be followed in the regular stream only. The specific Ordinances pertaining to schemes of examinations of various courses shall stand amended, mutatis mutandis, to the extent of internal assessment as laid down in this Ordinance, subject to exclusions referred to above.
- 1.2. Internal Assessment marks shall be shown separately in the Marks Sheet issued by the University and these marks shall be added to the semester examination marks for determining the division of the student.
2. 25% of the maximum marks in each paper in undergraduate courses shall be assigned for Internal Assessment and the remaining 75% marks for the Semester University Examination; the time duration and other modalities of the semester examination with respect to this 75% component shall remain as per existing schemes of examination for various undergraduate courses.
 - 2.1.1 For the Semester Examination Scheme, there shall be 10% weightage assigned to Class Test(s)/Quiz(s) to be conducted by each college, for all subjects in B.A., & B.Com. Courses and all papers of the Main Subject in Honours courses.
 - 2.2.1 Each student shall be assessed on the basis of written assignments/ tutorials as well as on the basis of project reports/term papers/seminars. There shall be 10% weightage for such written assignment; and project reports/ presentations/ term papers/seminars. Each student shall be given at least one written assignment per paper in each term /semester.
 - 2.2.2 There shall be 5% weightage for regularity in attending lectures and tutorials, and the credit for regularity in each paper, based on attendance, shall be as follows:
 - More than 67% but less than 70% - 1 mark
 - 70% or more but less than 75% - 2 marks
 - 75% or more but less than 80% - 3 marks
 - 80% or more but less than 85% - 4 marks
 - 85% and above - 5 marks

[Medical certificates shall be excluded while calculating credit towards marks to be awarded for regularity, though such certificates shall continue to be taken into account for the purpose of calculating eligibility to appear for examinations as per the existing provisions of Ordinance VII.2.9. (a) (ii).]

3. The promotion criteria shall be as per the existing Ordinances for University Examinations, as applicable to respective courses. In addition, the same criteria shall apply to the total of the University Examination and the Internal Assessment, taken together.

7. Procedure for Obtaining the Documents from Examination Branch

The rules, procedures and forms for issue of the following documents are given on the University website: (<http://www.du.ac.in/downloads/>.htm).

RELEVANT ORDINANCES RELATED TO CALCULATION OF BENEFITS

Ordinance VII: Conditions for Admission to Examinations

- (a) (i) In the case of a student who is selected as a member of the N.C.C. to participate in the annual N.C.C. Camps or is deputed to undertake Civil Defence work and allied duties or in the case of a student who is enrolled in the National Service Scheme and is deputed to various public assignments by or with the approval of the Head of the institution concerned or a student who is selected to participate in sports or other activities organised by the Inter-University Board or in national or international fixtures in games and sports approved by the Vice-Chancellor or a student who is required to represent the University at the Inter-University Youth Festival, or a student who is required to participate in periodical training in the Territorial Army or a student who is deputed by the College to take part in Inter-College sports or fixtures, debates, seminars, symposia or social work projects or a student who is required to represent the College concerned in debates and other extra-curricular activities held in other Universities or such other activities approved by the Vice-Chancellor for this purpose, in calculating the total number of lectures etc. delivered in the College, or in the University, as the case may be, for his course of study in each academic year, the number of lectures etc., in each subject delivered, during the period of absence for that purpose shall not be taken into account.
(ii) The Principal of a College may consider, on the basis of the Medical Certificates produced, exceptionally hard cases of students who had fallen seriously ill or had met with an accident during the year disabling them from attending classes for a certain period, with a view to determining whether the lectures etc. delivered during the said period, or a part thereof, could be excluded for purposes of calculation of attendance of the year and decide each case on its own merits.
- (b) The College shall notify on the notice board the final attendance position of each of its students within three days of the dispersal of the classes in the each

semester of the academic year. Not later than five days, thereafter, a student may, by an application to the Principal of the college, claim benefit of exclusion of lectures under sub-clause (a) above on grounds to be specified and accompanied by the relevant documents. All such applications submitted within time shall be considered and disposed of by the Principal of the College at least 3 days prior to the commencement of the examination, in which the student is intending to appear.

- (c) The benefit of exclusion of lectures contemplated in categories (i) or (ii) of sub clause (a) above, either separately or jointly, shall in no case exceed 1/3 of the total number of lectures delivered.
1. A student in the categories listed above under clause (a), will get the benefit of attendance for Internal Assessment for the classes missed.
 2. However, medical certificates shall be excluded while calculating credit towards marks to be awarded for regularity, though such certificates shall continue to be taken into account for the purpose of calculating eligibility to appear for examinations.

Following points should be noted in view of Ordinance VII and Ordinance VIII-E

1. The rules related to benefits mentioned in Ordinance VII and VIII-E of University of Delhi shall be strictly followed.
2. Medical benefits are given for the purpose of determining eligibility to sit in examinations only and not for the purpose of giving marks.
3. Total benefits cannot exceed 1/3 of the total lectures delivered.
4. Benefits of attendance are given for participation and not for organising the events/activities.

The benefits as per the rules of the University of Delhi shall be given only for participation in:

- i. Various public assignments of the National Service Scheme (NSS) with the approval of the Teacher-in-charge/Principal;
 - ii. Sports or other activities organised by the Inter-University Board or in national or international fixtures in games and sports approved by the Vice-Chancellor or a student who is required to represent the University at the Inter-University Youth Festival;
 - iii. Periodical training in the Territorial Army;
 - iv. Inter-College sports or fixtures, debates, seminars, symposia or social work projects; or
 - v. Debates and other extra-curricular activities held in other Universities or such other activities.
5. Concerned Teacher-in-charge of societies shall make sure that the participation of student is bonafide.
 6. Benefit sheet must be given for every student separately. Students must submit the photocopy of benefit sheet to their concerned teacher but original sheet must be shown to the concerned teacher, if the teacher demands.

7. Following format of benefit sheet only should be followed:

 6. The Proctor may also submit an initial report establishing the identity of the perpetrators of ragging and the nature of the ragging incident.
 7. If the Principal of a College or Head of the Department or Institution or the Proctor is satisfied that for some reason, to be recorded in writing, it is not reasonably practical to hold such an enquiry, he/she may so advise the Vice-Chancellor accordingly.
 8. When the Vice-Chancellor is satisfied that it is not expedient to hold such an enquiry, his/her decision shall be final.
 9. On the receipt of a report under Clause (5) or (6) or a determination by the relevant authority under clause (7) disclosing the occurrence of ragging incidents described in Clause 3(a), (b) and (c), the Vice-Chancellor shall direct or order rustication of a student or students for a specific number of years.
 10. The Vice-Chancellor may in other cases of ragging order or direct that any student or students be expelled or be not for a stated period, admitted to a course of study in a college, departmental examination for one or more years or that the results of the student or students concerned in the examination or examinations in which they appeared be cancelled.
 11. In case any student who has obtained degree or diploma of Delhi University is found guilty; under this Ordinance, appropriate action will be taken under Statute 15 for withdrawal of degree or diploma conferred by the University.
 12. For the purpose of this Ordinance, abetment to ragging whether by way of any act, practice or incitement of ragging will also amount to ragging.
 13. All Institutions within the Delhi University system shall be obligated to carry out instructions/ directions issued under this Ordinance, and to give aid assistance to the Vice-Chancellor to achieve the effective implementation of the Ordinance.

PREVENTION, PROHIBITION & REDRESSAL OF SEXUAL HARASSMENT OF FEMALE STUDENT

Provisions of the Sexual Harassment of Women at workplace (Prevention, Prohibition & Redressal) Act, 2013 and Sexual Harassment of Women at workplace

(Prevention, Prohibition & Redressal) Rules, 2013, University Grants Commission (Prevention, Prohibition and Redressal of Sexual Harassment of Woman Employees and Students in Higher Educational Institutions) Regulations, 2015 govern the complaints related to sexual harassment and a designated committee has been constituted in the colleges to take cognizance of the matters, if any. For more information about the Act, 2013 refer to <http://wcd.nic.in/act/sexual-harassment-women-workplace-prevention-prohibition-and-redressal-act-2013> and UGC Regulation, 2015 published in the Gazette of India Extraordinary, Part III. Section 4 (New Delhi: Government of India, 2016).

INFRASTRUCTURE & FACILITIES

The College is very well equipped with infrastructure and facilities of global standards, which add to the globally competitive dimension of the learning process at the College.

- **Classrooms and Tutorial Block**

All the classrooms of SRCC are centrally air conditioned and are equipped with modern teaching facilities such as Wi-Fi enabled, ceiling mounted LCD projectors and supporting roll down screens. Since the main building of the College has been recognised by the Government of Delhi as a “Heritage Building”, the classrooms have retained the heritage look with the vintage teak furniture. In addition, the College also has a two storey tutorial block with fully air conditioned tutorial rooms that facilitates smooth conduct of personalized student-teacher interaction in the College.

- **Library**

The College has a well-stocked library catering to the needs of more than two thousand seven hundred students at the undergraduate and postgraduate levels. Being fully automated, the library uses Radio Frequency Identification (RFID) technology and database management software LibSys version 7.2. LIBRARY

The College has a well-stocked up-to-date library containing nearly seventy nine thousand books and subscribing to eighty international and national journals. The reading room can accommodate around three hundred students. The Library follows the Dewey Decimal System of classification. There is a computerized catalogue i.e Online Public Access Catalogue (OPAC), internet facility and online search services. The library is fully-automated with RFID Technology and is open for its members on all working days. Library is in the process to acquire Eviews-10 and N-List (INFLIBNET) for enhancing the academic and research infrastructure of the college. Library is also equipped with the Resource center to cater to the needs of differently-abled students. To become a borrowing member of the library, you must show your fee slip, bring one passport-size photograph and fill in the prescribed form obtainable from the circulation (issue/return) counter.

The students should follow certain rules and instructions in order to get best out of the Library:

1. The arrangement of the books (whether in the stack rooms, reserved sections) should never be disturbed. Once a book has been removed from the shelves, it should be left lying on the nearby tables. The library staff will put the book in its proper place. Please remember that a misplaced book in the library is just like a book lost.
2. If you are not able to find/trace what you are looking for, the library staff will help you.
3. Books issued should never be marked, torn or tampered with. They still have to be read by many people.

Besides this, certain Do's and Don'ts need to be observed by students:

Do's:

1. Seek the help of library staff if you are not able to locate/trace any book or reading material you are looking for. Each section is assigned to a library staff who can be contacted for help.
2. Library has RFID technology. Library Kiosk can be used to locate the desired item.
3. At the time of taking possession of any book or reading material, check and ensure that the same is in proper condition. Any abnormality must be reported to the counter assistant immediately.
4. Stand in queue while issuing or returning books.
5. Observe absolute SILENCE in the library.

-
-
6. Return issued books on time. If you need a book urgently, do reserve it in your name. You can get such books as soon as it is returned to the library.

Dont's:

1. Users should not mark or write on the reading materials, nor temper/deface/mutilate it in any form.
2. Users are not allowed to bring bags inside the library. All bags must be deposited at the Property Counter located at the entrance of the library, and collect the same while returning.
3. You should not use others' library card as library cards are Non-transferable.
4. Do not insert pencils or notebooks between the pages of a book, especially when closing it.
5. Users are not allowed to take any book or reading material out of the library without getting it issued.
6. Users should not speak or read loudly. Gossiping, sleeping and chatting are not permitted.
7. Eatables, drinks, etc. are not allowed in the Library.
8. Do not use mobile phone in the library.

Property Counter

As members are not allowed to bring any book, magazine etc. inside the library premises there is a Property Counter to keep these. Before entering the Library, members should deposit their belongings at the Property Counter at their own risk. Cash or other costly items should not be kept in the bags deposited at the counter.

The person at the Library Gate is deputed to check that:

1. No outsider enters the library without the permission of the Librarian or the Principal.
2. No personal belongings (bags etc.) are taken inside the library.
3. No book or periodical goes out without an entry in the library record.

The students are requested to cooperate with the library staff in checking because the person at the library gate is only performing his/her duty.

Library Card

1. All the students admitted to the College should apply on a prescribed form and are issued Library card at the time of their admission. The Card entitles them to avail all the library facilities.
2. The library card identifies that its bearer is a bonafide member of the library.
3. Please carry the library card always with you.
4. The library card should be kept carefully. If it is lost, a duplicate card will be issued at the discretion of the college authorities after establishing the complete identification and genuineness of the student.
5. It should not be handed over to anybody, as it may be misused. The owner is responsible for the consequences thereupon.

On-Line Public Access Catalogue (OPAC)

Library is fully automated. Two computer terminals are placed in the library on ground floor near circulation counter. Users can search their documents/books in

library database on these computers.

Arrangement of Books

To ensure the proper use of books, these have been arranged in a logical order according to the Dewey Decimal Classification Scheme. Books are placed on the shelves from left to right across a shelf, then down to the next shelf and across left to right and so on.

The books which are in constant demand such as Text Books, Reference Books etc. are placed separately to facilitate easy access to these books. This technique is adopted to facilitate easy, early search and also to save time.

Dictionaries

Dictionaries concerning the respective subject are placed in reference section so that the reader may consult them whenever he/she feels the need.

Resource Sharing (ILL)

The library has E-mail facility and online search service. We are in the process of acquiring a software package which will completely revolutionize the way we access the books from the catalogue. Library is an active member of Developing Library Network (DELNET).

RFID (Radio Frequency Identification)

Library has been technically upgraded with the installation of RFID. It will serve the hardware and software used in the library on a long term basis. It is technologically equipped to provide various features like RFID tags, RFID smart card system, self check out station, RFID security gate, RFID book drop, self-management system, portable Wi-Fi handled reader. This will ensure the smooth functioning of the library through automation of various procedures.

CONSTITUTION OF THE STUDENTS' UNION & SOCIETIES

Students' Union

For the purpose of drafting the Constitution of the Students' Union, its Name and Objects, there shall be an Association called "The Students' Union, Shri Ram College of Commerce", to foster social and intellectual activities among the students of the college; to develop in them power of expression and public speaking; and to impart them training in the working of democratic and parliamentary institutions.

Membership

1. All students of the college shall be members of the Students' Union.
2. Members of the Teaching Staff shall be ex-officio honorary members (without voting rights) of the Students' Union.

These two together, assembled in a meeting, will constitute the General Assembly of the Students 'Union.

Management

The affairs of the Students' Union shall be managed by an elected President and an elected Secretary with the aid and advice of a Cabinet, appointed by the Teacher-in-Charge, in consultation with the President and the Secretary. The Teacher-in-Charge will also function as Speaker of the House.

All the office-bearers shall be responsible to the General Assembly, subject to the ultimate control of the Principal.

The Tribunal

The Principal shall appoint, at the beginning of each Session, a Tribunal, consisting of three members of the Teaching Staff, one of whom shall be the Teacher-in-Charge, who shall also be its Convenor. The Tribunal shall decide all questions pertaining to the interpretation of the Constitution or any other matter that may be referred to it by the Teacher-in-Charge or the Principal.

The President and the Secretary

The President and the Secretary shall be elected by the general body of bonafide

students of the college as early as possible in the beginning of the academic year, from amongst the candidates approved by the Tribunal. They shall act under the guidance of the Teacher-in-Charge.

The eligibility for contesting elections and other terms and conditions will be governed by recommendations of the Lyngdoh Committee.

The Cabinet

The Cabinet shall consist of the following members:

1. **President:** He/She will be the Chief Executive of the Union and will function in all matters relating to the Union in accordance with the Constitution.
2. **Secretary:** He/She will assist the President and act as the Chief Executive in the absence of the President, in accordance with the Constitution.
3. **Treasurer:** He/She shall maintain the accounts of the Union and assist the President in managing the finances of the Union.
4. **Secretary for Cultural Affairs:** He/She shall organise cultural festivals, assist the President to select and send teams financed by the Union to outstation festivals; and to inform the concerned Societies about all cultural events taking place in other colleges/institutions.
5. **Secretary for General Maintenance:** He/She shall ensure cooperation and coordination with the authorities in the matter of physical amenities and facilities in the college, for example, in Cafe, Auditorium, Lawns, and with respect to the general cleanliness of the college premises.
6. **Secretary for Academic Affairs:** He/She shall take up with the authorities, problems of academic nature relating to time-table, classes and tutorials, and functioning of the Library, etc.
7. **Secretary for Parliamentary Affairs:** He/She shall organise the meetings of the Union Parliament, record minutes thereof, look after the publicity of the Union functions and forward the suggestions of the class representatives to the concerned authorities.

All members, except the Secretary for Parliamentary Affairs, shall be appointed by the Teacher-in-Charge, in consultation with the President and the Secretary, selecting at least one from each of the following categories:

1. Students pursuing Commerce courses
2. Students pursuing Economics courses
3. Girl students provided they fail to secure any representation in the above categories.

The Secretary for Parliamentary Affairs shall be elected by the class representatives from amongst themselves.

The Cabinet should be formed within 15 days of the election. It shall continue in office as long as the President and the Secretary remain in office. In the event of any of these two offices falling vacant, the Cabinet shall stand dissolved automatically.

The Students' Union Parliament

There shall be a Students' Union Parliament consisting of:

-
-
1. Members of the Cabinet.
 2. Class Representatives: One elected representative from each section of all the classes.
 3. The Leader and the Deputy Leader of the Opposition.

The election of the class representatives will be conducted by the President of the Students' Union. The Leader and the Deputy Leader of the Opposition will be persons who have lost the elections for the post of the President and the Secretary respectively by the narrowest margins.

In case of a difference of opinion in the Cabinet, the matter will be referred to the Students' Union Parliament. The Parliament will meet at least twice in each academic year. Ordinarily, a notice of at least three clear working days should be given for its meetings.

Meetings of the Union

The Secretary shall convene the meeting of the Union on the dates and timings fixed with the consent of the Teacher-in-Charge. A notice of at least three clear working days shall ordinarily be given for each meeting of the Union. An emergent meeting of the Union may, however, be called at a short notice. A meeting of the Union may also be called by the President with prior consent of the Teacher-in-Charge or by the Principal.

Meetings of the General Assembly

Ordinarily, a notice of three clear working days shall be given for all meetings of the General Assembly. However, with the approval of the Teacher-in-Charge, a meeting of the General Assembly may be called at a short notice.

The quorum of meeting of the General Assembly shall be 1/10 of the total student-members.

Members of the Union shall meet in the General Assembly at least twice in each academic year to consider the Budget proposals, amendments to the Constitution, motions of no-confidence, general policy matters, matters of general interest or to transact any other business. Such meetings shall be called by the Secretary, with the approval of the Teacher-in-Charge, on such dates and at such time as may be fixed by the Teacher-in-Charge.

No-Confidence Motion

A notice for a motion of No-confidence, signed by at least 50 students of the college, shall be submitted to the Speaker, with the statement of reasons, which if found in order, shall be placed before the Tribunal within three clear working days. The Tribunal shall give its decision within three clear working days and communicate it to the members. If rejected, the Tribunal will communicate to the members who have given the notice the specific reasons for which it has been rejected. When such a notice has been approved by the Tribunal, the motion of No-confidence shall be deemed to have been passed only when at least two-third of the members present and voting in the Students' Union Parliament have approved it.

Re-Election

In case, the office of the President or that of the Secretary or both falls vacant, there shall be, as soon as possible, fresh elections in accordance with the Election Rules.

Income and Expenditure

The main sources of income of the Union shall be:

1. Allocation out of the Students' Societies Fund
2. Special subscriptions raised with the consent of the J.C.C. or in exceptional circumstances with the consent of the Principal who should report this to the J.C.C. in its next meeting.
3. Donations

All expenditure shall be incurred with the prior approval of the Teacher-in-Charge and in accordance with the Budget passed by the General Assembly. Money can be withdrawn by the President or in the absence of the President, by the Treasurer, with the consent of the Teacher-in-Charge.

Amendments

Amendments to the Constitution can be proposed by a motion in the General Assembly by at least fifty bonafide student-members. The Proposers of the amendments shall circulate the amendments among the students and shall be allowed to explain it. Then the Amendment shall be deemed to have been passed when at least two-third of the members present have voted and approved it. No such amendments shall come into force unless it has been approved by the College Staff Council.

A copy of the Constitution will be put up on the notice board before the elections are held.

2. The J.C.C. shall meet as many times as is necessary, but not less than two times in each academic session.
3. Meetings of the J.C.C. shall be held in the College premises and as far as possible during recess time.
4. The meetings shall be convened by the Convenor(s) acting jointly or any one of them, provided she is acting with the prior permission of the Chairman.
5. Ordinarily three days' notice will be required for a meeting.
6. However, in case of any emergency, the meeting may be held as and when it is necessary.

Quorum

The quorum at a JCC meeting is one-third of its total members. During the JCC meeting, if the question of quorum is raised and if there is no quorum, the Chairman may adjourn the meeting or suspend it until there is quorum.

Passing of Resolution

A resolution or a proposal shall not be deemed to have been passed unless:

1. It has been agreed to by the majority of the members present at the meeting. In case of a tie in voting (voting shall be by a secret ballot), the matter shall be decided by casting vote of the Chairman.

or

2. It has been agreed to by two-third of the total number of members, by having put their signatures to the proposal moved by a member.

A decision of the J.C.C. will not be altered or repealed within two years from the date on which it is adopted unless, in materially changed circumstances, it has been agreed to by two-third of the total number of members of the J.C.C.

It will be the duty of the Chairman to see that the decisions of the J.C.C. are being implemented. In case of any problem, the Chairman should immediately convene a meeting of J.C.C. and take the help of members.

Amendment to the Constitution

An amendment to the Constitution may be initiated at a meeting specially called for the purpose, on a written representation made by at least three members, and for which at least seven days' notice has been given to the members of J.C.C. An amendment shall not be deemed to have been passed, unless it has been agreed to by a majority of the members of the J.C.C., with not less than two-third of the members present and voting.

Broad Guidelines for Conduct of Events / Activities in the College

Guidelines approved by the Staff Council, Shri Ram College of Commerce, in its meeting held on June 23, 2015 regarding organizing of extra-curricular activities,

events and functioning of various societies are as follows:

1. Only Staff Council recognized societies should be allowed to function. An unrecognised cell or forum shall not function, or any extra-curricular event will not be organized, unless that cell or forum or event is given a prior approval by the Staff Council. Any such proposal before being submitted to the Staff Council shall be vetted and reviewed by a committee of the Staff Council. That committee will consist of the Secretary, Staff Council as its convenor and Bursar, Students' Advisor, and President, Staff Association as its members.
2. Only a permanent teacher of the college can be in-charge of a society or activity or forum.
3. The societies or recognized cells will not hold any event without the prior written approval of the teacher-in-charge and Principal with estimated budget.
4. There should be no event of any society/union /forum before the elections in the college.
5. The Societies or the Union shall not put any desk or counter except during the lunch break.
6. The activities of all the societies must adhere to their objectives as specified in their constitution. They should not organize activities outside their domain.
7. The college societies should not be allowed to organize festivals. There should be only one college annual festival of maximum 3 days preferably on Thursday, Friday and Saturday, to be organized by the College Union.
8. No food stalls should be allowed in the college campus except during the Crossroads.
9. The structure/composition of the College Students' Union shall be strictly in conformity with the composition prescribed in the constitution of the Union. No other post than provided in the constitution shall be created formally or informally. The other cabinet members of the Students' Union must also fulfill the conditions of 75% attendance, no academic arrear, no disciplinary action etc., as specified by Lyngdoh Committee as eligibility criteria for contesting elections.
10. There should be a coordination committee to organize the College's Annual Cultural Festival.
11. No tickets/passes should be allowed to be printed and distributed.
12. During the college annual festival, there should not be a performer on all days. Only on the last day of the college annual festival a paid/sponsored artist can perform in the college campus, provided his total payment doesn't exceed Rs. 10 lakhs.
13. For all cultural and entertainment programs, prior approval of appropriate authorities such as Entertainment tax, Traffic, Police, Fire, etc. to be obtained in advance.
14. No society or the union or office bearer or student or any other person of the college shall collect money from sponsors or corporates or other organizations or persons either in their name or in their account or in the name/account of any other person. In case, it is found that any student or society or person or

forum has collected or taken any money in their name or in their account or in the name/account of any other person, severe penal action would be taken against such student or other person of the college which may extend to expulsion from the college.

General Instructions

- Please keep the College Identity Card with you at all times. It must be produced each time any member of the faculty or office staff asks for it. In case, you lose or damage your Identity Card, a duplicate card is issued on payment of Rs. 200. In case of loss, the duplicate card is issued only on submission of a copy of F.I.R. lodged with the police.

 6. Remittances: Remittances towards the sponsorship can only be in electronic mode (direct transfer to the college's bank account) or through Demand Draft/ Cheque drawn in favor of the Principal, as stated above. No remittance to be collected in cash. Sponsorships received in kind are to be mandatorily reported to the college administration.
 7. Settlement of Accounts: All bills and accounts pertaining to the event must be settled within a fortnight (15 days) of conclusion of the event.
 8. Direct Payments to Artists: All payments to the artists/star performers will be remitted directly to them and not through the Event Manager.
 9. All prizes/awards/rewards to be given in various competitive events must be duly recommended by the concerned Faculty Advisor of the Society/Union Advisor and finally approved by the Principal before their publication / announcement in public.
 10. Rights for Entry: No tickets/passes will be printed/distributed by any Society/Students' Union. The college administration reserves the rights to allow entry to the college premises through tickets/passes.
 11. All cultural programmes/DJ Music events must be over by 7 PM and no extension beyond the stated time will be allowed.
 12. Allocation of Stalls: Proposal and plan for setting of the stall will be submitted by the Societies/Students' Union duly forwarded by the concerned Faculty/Union Advisor. Allocation of stalls will be approved by the Principal. Decision of the Principal in this regard will be full and final and binding on the sponsors and Office Bearers of Societies and Students' Union.
Entry/identification badges to the sponsors/staff at stalls will be printed by the organizing Society/Students' Union and submitted to the Administration Office for necessary authentication by the college administration.
 13. No food stalls will be allowed except during 'Crossroads'.
 14. No stall will be allowed to be set up without signing of the MoU and deposit of requisite money/charges in the Accounts Section of the college.
 15. Stall(s) for promotion of and/or inclusive of activities like gambling/poker/playing cards/smoking hukkas/alcoholic drinks etc. will not be allowed to be set up. The sponsorship money/charges paid against such activities will not be refunded in any case. As also the college reserves the right to initiate penal proceedings against the offenders.
 16. Classes will remain suspended during the Crossroads only.
 17. All Societies/NSS/Students' Union are required to submit a list of their members and office bearers (with their contact details), duly forwarded by

-
-
- the concerned Faculty Advisor, in the Administration Office latest by January 15, 2018.
18. Sound/Music: Mike testing/sound check/playing music will not be allowed before 2:00 PM in any of the society events. In case of any default, the concerned society will be fined with a penalty of Rs. 5,000.
 19. No publicity hoardings/banners/flexes should contain any vulgar/offensive text/graphics. Societies/Students' Union should be careful in this regard and advise the sponsors accordingly.
 20. All organizing Societies/Students' Union must keep in mind that in case of any default on their part, the event will be cancelled.
 21. The college administration undertakes no responsibility for foot falls/huge gathering/huge sales volume, etc. at any of the events. The college will not be liable to compensate the vendors for any loss/damages incurred due to low sales or any other reason whatsoever.
 22. In case of disruption/cancellation of the event due to rain or any other natural disturbance or any act beyond the control of the college, the college will not be responsible to refund the sponsorship received.
 23. The college administration reserves the right to allow entry into the college premises during the events. Vendors or their staff will be allowed entry in the college premises only through a Special ID card issued by the college administration.
 24. The college administration/Principal/Faculty Advisors/any officer or official of the college will not be responsible in case of any default on the part of any Society/Students' Union or its Office Bearers.
 25. The format and design of the certificate to be issued by the union/societies to its members must be pre-approved by the Principal of the college.
 26. Cleanliness of the Campus: Keeping the campus clean at all times is our primary responsibility. All Societies/Students' Union must keep cleanliness of the campus and protection of our heritage building on highest priority. Visitors/participants/ sponsors be advised not to litter the campus with waste papers/polythene bags/ wrappers/plastic bottles etc. and not to place posters/banners/flexes on the walls/pillars etc. Fixing of nails on walls/pillars is strictly prohibited. Huge flexes hanged from terrace over the Office Block should not cover the windows of Administration Office and Accounts Office.

CHOICE BASED CREDIT SYSTEM (CBCS)

The CBCS provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill based courses. The courses can be evaluated following the grading system, which is considered to be better than the conventional marks system. Therefore, it is necessary to introduce uniform grading system in the entire higher education in India. This will benefit the students to move across institutions within India to begin with and across countries. The uniform grading system will also enable potential employers in assessing the performance of the candidates. In order to bring uniformity in evaluation system and computation of the Cumulative Grade Point Average (CGPA) based on student's

performance in examinations, the UGC has formulated the guidelines to be followed.

RELEVANT ORDINANCES

1. Span period for the under-graduate courses under the Choice Based Credit System (CBCS)

Ordinance VIII (2)

For all the students obtaining admissions under the Three Year Under-graduate Programme under CBCS starting 2015-16, the span period to complete the course will be 6 years from the year of admission in the first semester, irrespective of the different courses provided the student has completed all requirements to become eligible for appearing in the University Examinations as per rules.

2. Pass Percentage and Promotion Rules for All the Under-Graduate Courses under Choice Based Credit System

Ordinance IX

The following provisions shall be applicable to students admitted to the Three Year Undergraduate programme under Choice Based Credit System (CBCS):

12(1)

- a. A student who appears in an odd semester examinations or who was eligible to appear in the odd semester examinations but remains absent in any or all the papers of the said semester, shall move on to the next even semester irrespective of his/her result in the said examinations.
- b. The result shall be prepared on the basis of the formula prescribed as at Table 'a' with minor changes in the computation of grade cut off as at table 'B'. The passing criteria of attaining 40% marks in numerical value is therefore to be 'deleted'.
- c. A student shall be eligible for promotion from 1st year to 2nd year/ III semester provided he/she has passed 50% papers of I and II semester taken together and similarly for promotion from 2nd year to 3rd year /Vth semester.
- d. The student shall be declared fail as per the formula prescribed by UGC at Table 'A'. However, they shall have the option to re-attempt the marks in the paper in which they want to retain.
- e. A student shall be declared eligible for degree provided he/she has passed all the papers of 1st year, 2nd year and 3rd year of a course as per approval of the Executive Council (EC Resolution No. CNC-11/093/2015-16 dated 28th September, 2015)
- f. A student who wants to re-appear for improvement in marks in a paper prescribed for semester I/III/V may do so only in the semester examinations to be held in November-December. A student who wants to re-appear for improvement in a paper prescribed in semester II/IV/ VI may do so only in the examinations to be held in May/June.

(2) Re-appearance for improvement

- (a) A student may re-appear in any theory paper prescribed for a semester, on foregoing in writing her/his previous performance in the paper/s concerned.

This can be done in the immediate subsequent semester examination only (for example, a student reappearing in paper prescribed for semester I examination may do so along with subsequent semester IIIrd examination and not along with papers for semester Vth).

- (b) A candidate who has cleared examinations of third academic year (Vth and VIth semesters) may re-appear in any paper of V or VI semester only once, at the immediate subsequent examinations on foregoing in writing her/his previous performance in the paper/s concerned, within the prescribed span period.

(Note: The candidate of this category will not be allowed to join any postgraduate courses)

- (c) In the case of re-appearance in paper, the result will be prepared on the basis of candidate's current performance in the examinations.
- (d) In the case of a candidate, who opts to re-appear in any paper/s under the aforesaid provisions, on surrendering her/his earlier performance but fails to reappear in the paper/s concerned, the marks previously secured by the candidate in the paper/s in which she/he has failed to re-appear shall be taken into account while determining her/his result of the examination held currently.
- (e) Re-appearance in practical/internal assessment shall not be allowed.
- (f) All papers of Core, Elective, Ability Enhancement Compulsory Courses (AECC) and Skill Enhancement Courses (SEC) shall be for 100 marks each and 25 marks shall be for Internal Assessment (IA).
- (g) Examination for Practical wherever applicable shall be based on continuous valuation.
- (h) Duration of end semester theory examinations of Core and Elective subjects shall be three hours.
- (i) The entire evaluation process for AECC and Skill Enhancement Courses (SEC) shall be undertaken by each college where the AECC and SEC are being taught and the teacher responsible for the conduct of learning of the AECC and SEC shall be responsible for the evaluation,
- (j) There shall be no internal assessment in practical papers,
- (k) There shall be no supplementary examinations.
- (l) Paper setting and evaluation of the answer script of the concerned paper shall be coordinated by the respective boards appointed by the Competent Authority. In case of all Core Courses offered in different programmes across the disciplines, the assessment / evaluation of the 'theoretical component towards the end of the semester should be undertaken by external examiners from outside the college at the UG level who may be appointed by the Competent Authority.
- (m) Eligibility for award of degree under CBCS.

(3) Letter grades and grade points

- (a) A student who passes all the papers prescribed for semester I to semester VI examinations would be eligible for the degree. Such a student shall be categorized on the basis of the combined result of semester I to semester VI

examinations under CBCS on a 10 point grading system with the following Letter Grades as given below:

Letter Grade	Grade
O (Outstanding)	10
A+ (Excellent)	9
A (Very Good)	8
B+ (Good)	7
B (Above Average)	6
C (Average)	5
P (Pass)	4
F (Fail)	0
Ab (Absent)	0

Issue of Transcripts: Based on the grades earned, a Grade Certificate shall be issued to all the registered students by the University after every semester and a consolidated transcript indicating the performance in all semesters. The Grade Certificate will display the course details (code, title of the paper, number of credits, grade secured) along with SGPA of each semester and CGPA earned based on overall six semesters.

- (b) A student obtaining Grade F shall be considered failed and will be required to re-appear in the examinations.
- (c) For non-credit courses, 'satisfactory' or 'unsatisfactory' shall be indicated instead of the Letter Grade and this will not be counted for the computation of SGPA/CGPA.

Outline of Choice Based Credit System:

- 1. **Core Course:** A course, which should compulsorily be studied by a candidate as a core requirement is termed as a Core course.
- 2. **Elective Course:** Generally a course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline/ subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill is called an Elective Course.
 - 2.1 **DSE Course:** Elective courses may be offered by the main discipline/subject of study is referred to as Discipline Specific Elective. The University/Institute may also offer discipline related Elective courses of interdisciplinary nature (to be offered by main discipline/subject of study).
 - 2.2 **Dissertation/Project:** An elective course designed to acquire special/advanced knowledge, such as supplement study/support study to a project work, and a candidate studies such a course on his own with an advisory support by a teacher/faculty member is called dissertation/project.
 - 2.3 **Generic Elective (GE) Course:** An elective course chosen generally from an unrelated discipline/subject, with an intention to seek exposure is called a Generic Elective. P.S.: A core course offered in a discipline/subject may be treated as an elective by other discipline/subject and vice versa and such electives may also be referred to as Generic Elective.

-
-
3. **Ability Enhancement Courses (AEC)/Competency Improvement Courses/ Skill Development Courses/Foundation Course:** The Ability Enhancement (AE) Courses may be of two kinds: AE Compulsory Course (AECC) and AE Elective Course (AEEC). Paper C-9: BUSINESS MATHEMATICS

Objective: To familiarise the students with the basic mathematical tools with emphasis on applications to business and economic situations.

Unit I: Matrices and Determinants

- 1.1 Algebra of matrices. Inverse of a matrix, Matrix Operation – Business Application.
- 1.2 Solution of system of linear equations (having unique solution and involving not more than three variables) using matrix in version Method and Cremer's Rule, The Leontief Input Output Model (Open Model Only).

Unit II: Calculus I

- 2.1 Mathematical functions and their types- linear, quadratic, polynomial, exponential, logarithmic and logistic function. Concepts of limit, and continuity of a function.

-
-
- 2.2 Concept and rules of differentiation, Maxima and Minima involving second or higher order derivatives.
 - 2.3 Concept of Marginal Analysis, Concept of Elasticity, Applied Maximum and Minimum Problems including effect of Tax on Monopolist's Optimum price and quantity, Economic Order Quantity.

Unit III: Calculus II

- 3.1 Partial Differentiation. Partial derivatives up to second order. Homogeneity of functions and Euler's theorem. Total differentials. Differentiation of implicit functions with the help of total differentials.
- 3.2 Maxima and Minima in cases of two variables involving not more than one constraint including the use of the Lagrange multiplier.
- 3.3 Integration. Standard forms. Methods of integration - by substitution, by Parts and by use of partial fractions. Definite integration. Finding areas in simple cases.
- 3.3 Application of Integration to marginal analysis. Consumer's and Producer's Surplus, Rate of Sales; the Learning Curve.

Unit IV: Mathematics of Finance

Lecture/Practical Lab

- 4.1 Rates of interest-nominal, effective- and their inter-relationships in different compounding situations.
- 4.2 Compounding and discounting of a sum using different types of rates.
- 4.3 Types of annuities, like ordinary, due, deferred, continuous, perpetual, and their future and present values using different types of rates of interest. Depreciation of Assets. Valuation of simple loans and debentures. Sinking Fund. (General annuities *to be excluded*)

Unit V: Linear Programming

Lectures/ Practical Lab

- 5.1 Formulation of linear programming problems (LPP). Graphical solution to LPPs. Cases of unique and multiple optimal solutions. Unbounded solutions, infeasibility, and redundant constraints.
- 5.2 Solution to LPPs using Simplex method - maximization and minimization cases. Shadow prices of the resources. Identification of unique and multiple optimal solutions, unbounded solution, infeasibility and degeneracy.
- 5.3 The dual problem: Formulation of the Dual, Primal- Dual Solutions: (Excluding solution of dual problem when the primal problem involves mixed constraints). Economic interpretation of the dual.

Note: In addition the students will work on a software package for solving linear programming problems and analyze the results obtained there from. This will be done through internal assessment.

PAPER C-10: COMPUTER APPLICATIONS IN BUSINESS

Objective: To provide computer skills and knowledge for commerce students and to enhance the student understands of usefulness of in format ion technology tools forbusiness operations.

Unit I: Introduction

Introduction to Computer-Characteristics of Computers, the Computer System, Parts of Computers); Computer H/W Setup, Configuration, Networking, Mobile H/W Device and types wireless Networking; Operating System- Introduction to Operating Systems, An overview of various Computer & Mobile OS & Application (UN IX / Linux, DOS, Windows, Android, windows mobile. iOS Like), Features of latest Windows Operating Systems & its Management & Networking (Installation, backup, security, User control), Usage of payment gateways.

Unit II: Introduction to essential tools

Lecture/ Practical Lab

Introduction to facilities & commonly used features of:

- a) **Word:** Working with word document, Inserting, filling and formatting a table, Mail Merge including linking with Access Database, Creating Macros - Sending E-mail from Word Import / Export of files Converting Word Document to Web Document, PDF files Hyperlinks; OLE Security features in MS-Word - Protection of Documents– Password for Documents - Checking for viruses in macros, referencing, creating bibliography, manage sources and citations, review documents.
- b) **PowerPoint:** Preparing Presentations, Slides, Handouts, Speaker's Notes Outlines Media Clips - Charts - Graphs, Adding the Transitions to the Slide Show Special effects in detail, - Setting Slide timings.
- c) **Spreadsheet:** Creating a work book, Rearranging Worksheet, Organizing Chartsand graphs, Ranges and Functions & Formulae: Mathematical, Statistical Financial Functions such as NPV (Net present value), Future value, IRR (Internal Rate of Return), EMI (Equated Monthly Instalments, Compounding Yearly, periodic and monthly) – Auto Calculate Using Names in a Formula, Formula

Editing, Consolidation of Data & Data Analysis - Sorting List, Filter & More Filtering Techniques - Consolidate data in multiple worksheets - What- if analysis, Goal Seek Scenario Manager, Solver, Lookup Function - Sub Totals, Nested-IF, Statistical Analysis; Data Validation & Protection - Create a drop down list from range of cells - Apply data validation to cells - Copy data validation setting, remove data validation - Find cell that have data validation, protect cell data, using password to protect sheet and workbook. - Use validation to create dependent list; Pivot table Reports & Pivot Chart Reports.

Unit III: Using Spread sheet for Data Analysis & Reporting Features:

Lectures, Practical Lab

Using spread sheet for following purposes and making reports: Loan & Lease statement, Ratio Analysis, Payroll statements, Capital Budgeting, Depreciation Accounting, Graphical representation of data, Frequency distribution and its statistical parameters, Correlation and Regression.

Unit IV: Database Designs for Accounting and Business Applications

Lectures, Practical Lab

Reality-Expressing the Application; Creating Initial design in Entity Relationship (ER) Model; Transforming ER Model to Relational data model concepts; Implementing RDM design using an appropriate DBMS. SQL and Retrieval of Information: Basic Queries in SQL; Embedded Queries in SQL; Insert, Delete and Update statements in SQL DBMS Software: Environment; Tables; Forms; Queries; Reports; Modules; Applying DBMS in the areas of Accounting, Inventory, HRM and its accounting, Managing the data records of Employees, Suppliers and Customers.

Unit V: CAAT Tools

Lectures, Practical Lab

Capabilities & Importing Data from Accounting & other Application Systems – An Introduction; Analytical Reports, Duplicates/Gaps. Sorting & Charting; Stratification, Summarization, Statistics & Aging - An Introduction ; Sampling, Macros and Audit Trail.

Paper SEC-2(A): ENTREPRENEURSHIP

Objective: To understanding about entrepreneurship and creative thinking and behaviour for effectiveness at work and in life.

Unit I: Introduction

Meaning, elements, determinants and importance of entrepreneurship and creative behaviour. Entrepreneurship and creative response to the society' problems and at work. Dimensions of entrepreneurship: intrapreneurship, technopreneurship, cultural entrepreneurship, international entrepreneurship, netpreneurship, ecopreneurship, and social entrepreneurship.

Unit II: Types of Business Entities

Entrepreneurship and Micro, Small and Medium Enterprises. Concept of business groups and role of business houses and family business in India. The contemporary role models in Indian business: their values, business philosophy and behavioural orientations. Connect in family business and its resolution.

Unit III: Entrepreneurial Sustainability

Public and private system of stimulation, support and sustainability of entrepreneurship. Requirement, availability and access to finance, marketing

assistance, technology, and industrial accommodation, Role of industries/ entrepreneur's associations and self-help groups. The concept, role and functions of business incubators, angel investors, venture capital and private equity fund.

Unit IV: Business Plan Preparation

Sources of business ideas and tests of feasibility. Significance of writing the business plan/ project proposal. Contents of business plan/ project proposal. Designing business processes, location, layout, operation, planning & control; preparation of project report (various aspects of the project report such as size of investment, nature of product, market potential may be covered). Project submission/ presentation and appraisal there of by external agencies, such as financial/non financial institutions.

Unit V: Mobilising Resources

Mobilising resources for start-up. Accommodation and utilities. Preliminary contracts with the vendors, suppliers, bankers, principal customers; Contract management: Basic start-up problems.

Paper SEC-2(B): COLLECTIVE BARGAINING AND NEGOTIATION SKILLS

Objective: To promote understanding of the concept and theories of collective bargaining, and also to provide exposure to the required skills in negotiating a contract.

Unit I: Issues in Collective Bargaining

Meaning, Definitions and Characteristics of Collective Bargaining; Critical Issues in

Collective Bargaining; Theories of Collective Bargaining: I-lick's Analysis of Wages Setting under Collective Bargaining, Conflict-choice Model of Negotiation, A Behavioural Theory of Labour Negotiation.

Unit II: Collective Bargaining in India

Pre-requisites for successful Collective Bargaining in any Country; Collective Bargaining in Practice; Levels of Bargaining, Coverage and Duration of Agreements; Difficulties in the Bargaining Process and Administration of Agreements.

Unit III: Negotiating a Contract

Meaning of Negotiations, Pre-negotiation- Preparing the Charter of Demand(s), Creating the Bargaining Team, Submission of COD, Costing of Labour Contracts.

Unit IV: Negotiation Skills,

Negotiation Process; Effective Negotiation-Preparing for Negotiation, Negotiating Integrative Agreements; Negotiation and Collective Bargaining- Approaches and Phases in Collective Bargaining, Coalition Bargaining and Fractional Bargaining, Impasse Resolution, Contract Ratification. Post Negotiation-Administration of the Agreement, Grievance Management, Binding up the Wounds; Collective Bargaining & the emerging scenario.

Paper SEC-2(C): E-FILING OF RETURNS

Objective: To provide the students the conceptual and practical knowledge about electronic filing of returns.

Unit I: Conceptual Framework

Meaning of e-filing; difference between e-filing and regular filing of returns; benefits and limitations of e-filing, types of e-filing; e-filing process; relevant notifications.

Unit II: Income tax and E-filing of ITRs

Introduction to income tax - basic terminology, types of assessee, income taxable under different heads, basics of computation of total income and tax liability, deductions available from gross total income, PAN card, due date of filing of income tax return. Instructions for filling out form ITR-1, ITR-2, ITR-3, ITR-4, ITR-4S, ITR-5, ITR-6. Introduction to Income tax Portal; preparation of electronic return (practical workshops).

Unit III: TDS and E-filing of TDS returns

Introduction to the concept of TDS; provision regarding returns of TDS; types of forms for filing TDS returns; practical workshop on e-filing of TDS returns.

Unit IV: Service tax and E-filing of Service tax returns

Introduction to service tax; relevant notifications regarding e-filing of service tax returns; steps for preparing service tax returns; practical workshop on e-filing of service tax returns.

Paper SEC-2(D): CYBER CRIMES AND LAWS

Objective: This paper intends to create an understanding towards the cyber crimes and to familiarize the students with the application of cyber laws in general.

Unit I: Cyber Crimes

Introduction- Computer crime and cybercrimes; Distinction between cyber crimes and conventional crimes; cyber forensic; Kinds of cybercrimes- cyber stalking, cyber terrorism, forgery and fraud, crimes related to IPRs, computer vandalism; Privacy of online data; Cyber Jurisdiction; Copyright issues; and Domain name dispute etc.

Unit II: Definition and Terminology (Information Technology Act, 2000)

Concept of Internet, Internet Governance, E-Contract, E-Forms, Encryption, Data Security. Access, Addressee, Adjudicating Officer, Affixing Digital Signatures, Appropriate Government, Certifying Authority, Certification Practice Statement, Computer, Computer Network, Computer Resource, Computer System, Cyber Appellate Tribunal, Data, Digital Signature, Electronic Form, Electronic Record, Information, Intermediary, Key Pair, Originator, Public Key, Secure System, Verify, Subscriber as defined in the Information Technology Act, 2000.

Unit III: Electronic Records

Authentication of Electronic Records; Legal Recognition of Electronic Records; Legal Recognition of Digital Signatures; Use of Electronic Records and Digital Signatures in Government and its Agencies; Retention of Electronic Records; Attribution, Acknowledgement and Dispatch of Electronic Records; Secure Electronic Records and Digital Signatures.

Unit IV: Regulatory Framework

Regulation of Certifying Authorities; Appointment and Functions of Controller; License to issue Digital Signatures Certificate; Renewal of License; Controller's Powers; Procedure to be Followed by Certifying Authority; Issue, Suspension and Revocation of Digital Signatures Certificate, Duties of Subscribers; Penalties and Adjudication; Appellate Tribunal; Offences

Unit V: Case Laws

Paper C-11: PRINCIPLES OF MARKETING

Objective: The objective of this course is to provide basic knowledge of concepts, principles, tools and techniques of marketing.

Unit – I

- Introduction: Nature, scope and importance of marketing; Evolution of marketing concepts; Marketing mix; Marketing environment. Micro and Macro environmental factors.
- Consumer Behavior – An Overview: Consumer buying process; Factors influencing consumer buying decisions.

Unit –II

- Market Selection:** Market segmentation – concept, importance and bases; Target market selection; Positioning concept, importance and bases; Product differentiation vs. market segmentation.
- Product:** Meaning and importance. Product classifications; Concept of product mix; Branding, packaging and labeling; After-sales services; Product life-cycle; New Product Development.

Unit –III

- Pricing:** Significance. Factors affecting price of a product. Major pricing methods; Pricing policies and strategies.
- Promotion:** Nature and importance of promotion; Promotion tools: advertising, personal selling, public relations; sales promotion and publicity – concept and their distinctive characteristics; Promotion mix; Factors affecting promotion mix decisions; Integrated Marketing Communication Approach.

Unit –IV

- Distribution:** Channels of distribution - meaning and importance; Types of distribution channels; Wholesaling and retailing; Factors affecting choice of distribution channel; Distribution logistics: Meaning, importance and decisions.
- Retailing:** Types of retailing – store based and non-store based retailing, chain stores, specialty stores, supermarkets, retail vending machines, mail order houses, retail cooperatives; Management of retailing operations: an overview; Retailing in India: changing scenario.

Unit –V

- Developments & Issues in Marketing:** Rural marketing, Social Marketing, Online marketing, Direct marketing, Services marketing, Green marketing, Relationship marketing. Marketing ethics.

Paper C-12: FUNDAMENTALS OF FINANCIAL MANAGEMENT

Objective: To familiarize the students with the principles and practices of financial management.

Unit-I: Introduction

Nature, Scope and objectives of financial management, Agency problem, Time value of money, Risk and return (including Capital Asset Pricing Model).

Unit-II: Capital Budgeting

Lectures/Practical Lab

The Capital Budgeting Process, Cash flow Estimation, Payback Period Method, Discounted Payback Period Method, Accounting Rate of Return, Net Present Value (NPV), Net Terminal Value, Internal Rate of Return (IRR), Profitability Index, Capital budgeting under Risk – Certainty Equivalent Approach and Risk- Adjusted Discount Rate.

Unit-III: Cost of Capital and Financing Decision

Sources of long-term financing, Estimation of components of cost of capital. Methods for Calculating Cost of Equity, Cost of Retained Earnings, Cost of Debt and Cost of Preference Capital, Weighted Average cost of capital (WACC) and Marginal cost of capital. Capital structure – Theories of Capital Structure (Net Income, Net Operating Income, MM Hypothesis, Traditional Approach). Operating and Financial leverage. Determinants of capital structure.

Unit-IV: Dividend Decision

Theories for Relevance and irrelevance of dividend decision for corporate valuation -

Walter's Model, Gordon's Model, MM Theory, Cash and stock dividends. Dividend policies in practice and Determinants of Dividend.

Unit-V: Working Capital Decisions

Concepts of working capital, Operating & Cash Cycles, Risk-return trade off, sources of short-term finance, working capital estimation, cash management, receivables management, inventory management.

Note:

1. In Addition the students will work on Spreadsheet for doing basic calculations in finance (Unit 2 and 3) and hence can be used for giving students subject related assignments for their internal assessment.
2. There shall be 4 Credit Hrs. for Lectures + one credit hr. (Two practical Periods per week per batch) for practical Lab + one credit for Tutorials (per group)

Paper: DSE-1 (anyone out of Group-A)

GROUP A	
a. Management Accounting	c. Banking and Insurance
b. Organizational Behaviours	d. Computerized Accounting System

DSE Group A (a): MANAGEMENT ACCOUNTING

Objective: To impart the students, knowledge about use of financial, cost and other data for the purpose of managerial planning, control and decision making.

Unit I: Introduction

Meaning, objectives, Nature and Scope of management accounting, Difference

between cost accounting and management accounting, cost control, cost reduction, cost management.

Unit II: Budgetary control

Concept of budget, budgeting and budgetary control, objectives, merits, and limitations. Budget administration, Functional budgets. Fixed and flexible budgets, Zero base budgeting. Programme and performance budgeting.

Unit III: Standard costing

Meaning of standard cost and standard costing: advantages, limitations and applications, Variance analysis – material, labour, overheads and sales variances. Disposition of variances, Control ratios.

Unit IV: Marginal costing

Absorption versus variable costing: Distinctive features and income determination. Cost-Volume-Profit Analysis: Break-even analysis-algebraic and graphic methods. Angle of incidence, Margin of safety, key factor, Determination of cost indifference point.

Unit V: Decision making

Steps in decision making process, concept of relevant cost and benefits, Various short term decision making situations – profitable product mix, Acceptance or Rejection of special/export offers, make or buy, addition or elimination of a product line, sell or process further, operate or shut down. Pricing decisions: Major factors influencing pricing decisions, various methods of pricing.

Unit VI: Contemporary Issues

Responsibility Accounting: Concept, Significance, Different Responsibility Centers, Divisional Performance Measurement – Financial and non financial Measures. Transfer pricing.

Meaning of research; Scope of Business Research; Purpose of Research – Exploration, Description, Explanation; Unit of Analysis – Individual, Organization, Groups, and Data Series; Conception, Construct, Attributes, Variables.

Unit II: Research Process

An Overview; Problem Identification and Definition; Selection of Basic Research Methods- Field Study, Laboratory Study, Survey Method, Observational Method, Existing Data Based Research, Longitudinal Studies, Panel Studies.

Unit III: Measurement

Definition; Designing and writing items; Uni-dimensional and Multi-dimensional scales; Measurement Scales- Nominal, Ordinal, Interval, Ratio; Ratings and Ranking Scale, Thurstone, Likert and Semantic Differential scaling, Paired Comparison;

Sampling –Steps, Types, Sample Size Decision; Secondary data sources.

Unit IV: Hypothesis Testing

Tests concerning means and proportions; ANOVA, Chi-square test and other Non-parametric tests, assumptions of Classical Normal Linear Regression

Section B: Project Report

Unit V: Report Preparation

Meaning, types and layout of research report; Steps in report writing; Citations, Bibliography and Annexure in report; JEL Classification.

Note:

1. There shall be a written examination of 50% Marks on the basis of Unit I: to IV.
2. The student will write a project report under the supervision of a faculty member assigned by the college/institution based on field work. The Project Report carries 50% Marks and will be evaluated by University appointed examiners.

DSE Group D (c): INTERNATIONAL BUSINESS

Objective: To expose students to the concept, importance and dynamics of international business and India's involvement with global business operations.

Unit I

Introduction to International Business: Globalization and its growing importance in world economy; Impact of globalization; International business contrasted with domestic business - complexities of international business; Internationalization Stages and Orientations. Modes of entry into international business.

International Business Environment: National and foreign environments and their components - economic, cultural and political-legal environments; Global trading environment - recent trends in world trade in goods and services; Trends in India's foreign trade.

Unit II

International Trade –Theories of International Trade, tariff and nontariff measures; Balance of payment account and its components.

International and economic organizations: WTO, UNCTAD, World Bank and IMF.

Regional Economic Integration: Forms of regional integration; Integration efforts among countries in Europe, North America and Asia. Cost and benefit of regional economic integration.

Unit III

International Financial Environment: International financial system and institutions; Foreign exchange markets, Spot market, spot rate quotations, bid-ask spreads, Trading in spot markets, Cross exchange rates; Forward Market: forward rate, long and short forward positions, forward premium and discount. Arbitrage, hedging and speculation; Foreign investments - types and flows; Foreign investment in Indian perspective.

Unit IV

Exchange Rate Determination: Factors affecting exchange rate –Relative inflation rates, relative interest rates, relative income levels, government controls, expectations, B.Com (Hons.) CBCS 47 Department of Commerce, University of Delhi, Delhi etc. Government intervention and government influence on exchange rates. Theories of exchange rate – Purchasing Power Parity, Interest Rate Parity and Fisher's effect.

Unit V

Foreign Trade promotion measures and organizations in India: Special economic zones (SEZs) and 100% export oriented units (EOUs); Measures for promoting foreign investments into and from India; Indian joint ventures and acquisitions abroad.

DSE Group D (d): INDUSTRIAL RELATIONS AND LABOUR LAWS

Objective: To enable the students to learn the concepts of industrial relations including trade unions, collective bargaining, discipline and various labour enactments.

Unit 1: Industrial Relations (IR)

Concept of Industrial Relations; Nature of Industrial Relations; Objectives of IR; Factors affecting IR in changing Environment, Evolution of IR in India; Role of State; Trade Union; Employers' Organisation; Human Resource Management and IR Role of ILO in Industrial Relations, International Dimensions of IR.

Unit 2: Trade Union

Trade Union: Origin and growth, unions after Independence, unions in the era of liberalisation; Factors Affecting Growth of Trade Unions in India, Multiplicity & Recognition of Trade Unions; Major Provisions of Trade Union Act 1926

Unit III: Discipline and Grievance Redressal

Discipline: Causes of indiscipline, Maintenance of discipline and misconduct; Highlights of domestic enquiries; Principle of Natural Justice; Labour turnover; Absenteeism; Grievance: Meaning of Grievance, Grievance redressal machinery in India, Grievance handling procedure; salient features of Industrial Employment (Standing orders) Act 1946

Unit IV: The Industrial Disputes Act, 1947

Definitions of Industry, workman, and Industrial Dispute; Authorities under the Act: Procedure, Powers and Duties of Authorities; Strikes and Lock outs: Lay-off and Retrenchment: Provisions relating to Layoff, Retrenchment, and closure.

Unit V: The Factories Act, 1948

Provisions relating to manufacturing process, workers, occupier, Health, Safety, Welfare facilities.

SYLLABUS: B.A. (Hons.) Economics

Semester - I

Paper: ENVIRONMENTAL STUDIES/ COMMUNICATION (A/B) (ENGLISH/HINDI)*

*Please refer to **Page No.** for details of ENVIRONMENTAL STUDIES/
COMMUNICATION (A/B) (ENGLISH/HINDI)*

Paper: Core Economics Course 1: Mathematical Methods for Economics I

Course Objective

This is the first of a compulsory two-course sequence. The objective of this sequence is to transmit the body of basic mathematics that enables the study of economic theory at the undergraduate level, specifically the courses on microeconomic theory, macroeconomic theory, statistics and econometrics set out in this syllabus. In this course, particular economic models are not the ends, but the means for illustrating the method of applying mathematical techniques to economic theory in general. The level of sophistication at which the material is to be taught is indicated by the contents of the prescribed textbook.

Course Learning Outcomes

The course hones and upgrades the mathematical skills acquired in school and paves the way for the second semester course Mathematical Methods in Economics II. Collectively, the two papers provide the mathematical foundations necessary for further study of a variety of disciplines including economics, statistics, computer science, finance and data analytics. The analytical tools introduced in this course have applications wherever optimisation techniques are used in business decision-making. These tools are necessary for anyone seeking employment as an analyst in the corporate world. The course additionally makes the student more logical in making or refuting arguments.

Unit 1

Preliminaries Logic and proof techniques; sets and set operations; relations; functions and their properties; number systems

Unit 2

Functions of one real variable Graphs; elementary types of functions: quadratic, polynomial, power, exponential, logarithmic; sequences and series: convergence, algebraic properties and applications; Continuous functions: characterisations, properties with respect to various operations and applications; Differentiable functions: characterisations, properties with respect to various operations and applications; Second and higher order derivatives: properties and applications

Unit 3

Single-variable optimization Geometric properties of functions: convex functions, their characterisations and applications; local and global optima: geometric and calculus-based characterisations, and applications

Unit 4

Linear algebra Vector spaces: algebraic and geometric properties, scalar products, norms, orthogonality; linear transformations: properties, matrix representations and elementary operations; systems of linear equations: properties of their solution sets; determinants: characterization, properties and applications

Paper: Core Economics Course 2: Introductory Microeconomics

Course Objective

This course is designed to expose the students to the basic principles of microeconomic theory. The emphasis will be on thinking like an economist and the course will illustrate how microeconomic concepts can be applied to analyze real life situations.

Course Learning Outcomes

The course introduces the students to the first course in economics from the perspective of individual decision making as consumers and producers. The students learn some basic principles of microeconomics, interactions of supply and demand, and characteristics of perfect and imperfect markets.

Unit 1

Introduction What is microeconomics? Scope and method of economics; the economic problem: scarcity and choice; the concept of opportunity cost; the question of what to produce, how to produce and how to distribute output; science of economics; institutions for allocating resources; the basic competitive model; prices, property rights and profits; incentives and information; rationing; positive versus normative analysis

The scientific method; the role of assumptions; models and mathematics; why economists sometimes disagree

Interdependence and gains from trade; specialization and trade; absolute advantage; comparative advantage and trade

Unit 2

Supply and demand: How markets work, markets and welfare Markets and competition; determinants of individual demand/supply; demand/supply schedule and demand/supply curve; market versus individual demand/supply; shifts in the demand/supply curve, demand and supply together; how prices allocate resources; elasticity and its application; controls on prices; taxes and the costs of taxation; consumer surplus; producer surplus and the efficiency of the markets

Application to international trade; comparison of equilibria with and without trade, the winners and losers from trade; effects of tariffs and quotas; benefits of international trade; some arguments for restricting trade

Unit 3

The Households The consumption decision - budget constraint, consumption and income/price changes, demand for all other goods and price changes; description of preferences (representing preferences with indifference curves); properties of indifference curves; consumer's optimum choice; income and substitution effects; labour supply and savings decision; choice between leisure and consumption

Unit 4

The firm and perfect market structure Behaviour of profit maximizing firms and the production process; short-run costs and output decisions; costs and output in the long-run

Unit 5

Imperfect Market Structure Monopoly and anti-trust policy; government policies towards competition; imperfect competition

Unit 6

Input Markets Labour and land markets: Basic concepts (derived demand, productivity of an input, marginal productivity of labour, marginal revenue product); demand for labour; input demand curves; shifts in input demand curves; competitive labour markets; labour markets and public policy

Unit 1

Functions of several real variables Geometric representations: graphs and level curves; differentiable functions: characterisations, properties with respect to various operations and applications; second order derivatives: properties and applications; the implicit function theorem, and application to comparative statics problems; homogeneous and homothetic functions: characterisations and applications

Unit 2

Multivariate optimization Convex sets; geometric properties of functions: convex functions, their characterisations, properties and applications; further geometric properties of functions: quasiconvex functions, their characterisations, properties and applications; unconstrained optimisation: geometric characterisations, characterisations using calculus and applications; constrained optimisation with equality constraints: geometric characterisations, Lagrange characterisation using calculus and applications; properties of value function: envelope theorem and applications

Unit 3

Linear programming Introduction, graphical solution, matrix formulation, duality, economic interpretation

Unit 4

Integration, differential equations, and difference equations Definite integrals, indefinite integrals and economic applications; first order difference equations, equilibrium and its stability; first order differential equations, phase diagrams and stability

Paper: ECONOMICS CORE COURSE 4: INTRODUCTORY MACROECONOMICS

Course Objective

This is the first module in a three-module sequence that introduces students to the basic concepts of Macroeconomics. Macroeconomics deals with the aggregate economy. This course discusses the preliminary concepts associated with the determination and measurement of aggregate macroeconomic variable like GDP, savings, investment, money, inflation, and the balance of payments. It also introduces students to simple analytical frameworks (e.g., the IS-LM model) for determination of equilibrium output.

Course Learning Outcomes

This course aims to develop the broad conceptual frameworks which will enable students to understand and comment upon real economic issues like inflation, money supply, GDP and their interlinkages. It will also allow them to critically evaluate various macroeconomic policies in terms of a coherent logical structure.

Unit 1

Introduction to macroeconomics and national income accounting Basic issues studied in macroeconomics: Measurement of gross domestic product; income, expenditure and the circular flow; real versus nominal GDP; price indices; national income accounting for an open economy; balance of payments: current and capital accounts

Unit 2

Money Functions of money; quantity theory of money; determination of money supply and demand; credit creation; tools of monetary policy

Unit 3

Inflation Inflation and its social costs; hyperinflation

Unit 4

The closed economy in the short run Classical and Keynesian systems; simple Keynesian model of income determination; IS-LM model; fiscal and monetary multipliers

Paper: ECONOMICS CORE COURSE 5: INTERMEDIATE MICROECONOMICS - I

Course Description

The course is designed to provide a sound training in microeconomic theory to formally analyze the behaviour of individual agents. Since students are already familiar with the quantitative techniques in the previous semesters, mathematical tools are used to facilitate understanding of the basic concepts. This course looks at the behaviour of the consumer and the producer and also covers the behaviour of a competitive firm.

Course Outline

1. Consumer Theory

Preference; utility; budget constraint; choice; demand; Slutsky equation; buying and selling; choice under risk and intertemporal choice; revealed preference.

2. Production, Costs and Perfect Competition

Technology; isoquants; production with one and more variable inputs; returns to scale; short run and long run costs; cost curves in the short run and long run; review of perfect competition.

Paper: ECONOMICS CORE COURSE 6: INTERMEDIATE MACROECONOMICS - I

Course Description

This course introduces the students to formal modeling of a macro-economy in terms of analytical tools. It discusses various alternative theories of output and employment determination in a closed economy in the short run as well as medium run, and the role of policy in this context. It also introduces the students to various theoretical issues related to an open economy.

Course Outline

1. Aggregate Demand and Aggregate Supply Curves

Derivation of aggregate demand and aggregate supply curves; interaction of aggregate demand and supply.

2. Inflation, Unemployment and Expectations

Phillips curve; adaptive and rational expectations policy ineffectiveness debate.

3. Open Economy Models

Short-run open economy models; Mundell-Fleming model; exchange rate determination; purchasing power parity; asset market approach; Dornbusch's

over shooting model; monetary approach to balance of payments international financial markets.

Paper: ECONOMICS CORE COURSE 7: STATISTICAL METHODS FOR ECONOMICS

Course Description

This is a course on statistical methods for economics. It begins with some basic concepts and terminology that are fundamental to statistical analysis and inference. It then develops the notion of probability, followed by probability distributions of discrete and continuous random variables and of joint distributions. This is followed by a discussion on sampling techniques used to collect survey data. The course introduces the notion of sampling distributions that act as a bridge between probability theory and statistical inference. The semester concludes with some topics in statistical inference that include point and interval estimation.

Course Outline

1. Introduction and Overview

The distinction between populations and samples and between population parameters and sample statistics; the use of measures of location and variation to describe and summarize data; population moments and their sample counterparts.

2. Elementary Probability Theory

Sample spaces and events; probability axioms and properties; counting techniques; conditional probability and Bayes' rule; independence.

3. Random Variables and Probability Distributions

Defining random variables; probability distributions; expected values of random variables and of functions of random variables; properties of commonly used discrete and continuous distributions (uniform, binomial, normal, poisson and exponential random variables).

4. Random Sampling and Jointly Distributed Random Variables

Density and distribution functions for jointly distributed random variables; computing expected values; covariance and correlation coefficients.

5. Sampling

Principal steps in a sample survey; methods of sampling; the role of sampling theory; properties of random samples.

6. Point and Interval Estimation

Estimation of population parameters using methods of moments and maximum likelihood procedures; properties of estimators; confidence intervals for population parameters.

Paper -: SEC-1: FINANCIAL ECONOMICS

Course Description

This course introduces students to the economics of finance. The course does not require any prior knowledge of economics. This course should be accessible to anyone with an exposure to elementary mathematics. The course is designed to impart the essential aspects of financial asset valuation. The students will be

introduced to numerical techniques in finance using spreadsheet programmes such as Microsoft Excel. The course will impart skills that will be useful in a variety of business settings including investment banks, asset management companies and in the field of financial and business journalism.

Course Outline

1. Deterministic cash-flow streams

Basic theory of interest; discounting and present value; internal rate of return; evaluation criteria; fixed-income securities; bond prices and yields; interest ratesensitivity and duration; immunisation; the term structure of interest rates; yield curves; spot rates and forward rates.

2. Single-period random cash flows

Random asset returns; portfolios of assets; portfolio mean and variance; feasible combinations of mean and variance; mean-variance portfolio analysis: the Markowitz model and the two-fund theorem; risk-free assets and the one-fund theorem.

3. Capital Asset Pricing Model (CAPM)

The capital market line; the capital asset pricing model; the beta of an asset and of a portfolio; security market line; use of the CAPM model in investment analysis and as a pricing formula.

Paper -: ECONOMICS CORE COURSE 8: INTERMEDIATE MICROECONOMICS - II

Course Description

This course is a sequel to Intermediate Microeconomics I. The emphasis will be on giving conceptual clarity to the student coupled with the use of mathematical tools and reasoning. It covers general equilibrium and welfare, imperfect markets and topics under information economics.

Course Outline

1. General Equilibrium, Efficiency and Welfare

Equilibrium and efficiency under pure exchange and production; over all efficiency and welfare economics.

2. Strategic form games with perfect information; Mixed strategy and extensive form games with perfect information.

3. Market Structure and Game Theory

Monopoly; pricing with market power; price discrimination; peak-load pricing; two-part tariff; monopolistic competition and oligopoly; game theory and competitive strategy.

4. Market Failure

Externalities; public goods and markets with asymmetric information.

Readings:

1. Hal R. Varian, Intermediate Microeconomics, a Modern Approach, 8th edition, W.W. Norton and Company/Affiliated East-West Press (India), 2010. The workbook by Varian and Bergstrom could be used for problems.

Paper :- ECONOMICS CORE COURSE 9: INTERMEDIATE MACROECONOMICS - II

Course Description

This course is a sequel to Intermediate Macroeconomics I. In this course, the students are introduced to the long run dynamic issues like growth and technical progress. It also provides the micro-foundations to the various aggregative concepts used in the previous course.

Course Outline

1. Economic Growth

Harrod-Domar model; Solow model; golden rule; technological progress and elements of endogenous growth.

2. Microeconomic Foundations

- a. Consumption: Keynesian consumption function; Fisher's theory of intertemporal choice; life-cycle and permanent income hypotheses; rational expectations and random-walk of consumption expenditure.
- b. Investment: determinants of business fixed investment; residential investment and inventory investment.
- c. Demand for money.

3. Fiscal and Monetary Policy

Active or passive; monetary policy objectives and targets; rules versus discretion; time consistency; the government budget constraint; government debt and Ricardian equivalence.

4. Schools of Macroeconomic Thoughts

Classicals; Keynesians; New-Classicals and New-Keynesians.

Paper :- ECONOMICS CORE COURSE 10: INTRODUCTORY ECONOMETRICS

Course Description

This course provides a comprehensive introduction to basic econometric concepts and techniques. It covers statistical concepts of hypothesis testing, estimation and diagnostic testing of simple and multiple regression models. The course also covers the consequences of and tests for misspecification of regression models.

Course Outline

1. Nature and Scope of Econometrics

2. Statistical Concepts

Normal distribution; chi-sq, t- and F-distributions; estimation of parameters; properties of estimators; testing of hypotheses: defining statistical hypotheses; distributions of test statistics; testing hypotheses related to population parameters; Type I and Type II errors; power of a test; tests for comparing parameters from two samples.

3. Simple Linear Regression Model: Two Variable Case

Estimation of model by method of ordinary least squares; properties of estimators; goodness of fit; tests of hypotheses; scaling and units of measurement; confidence intervals; Gauss-Markov theorem; forecasting.

4. Multiple Linear Regression Model

Estimation of parameters; properties of OLS estimators; goodness of fit-R² and adjusted R²; partial regression coefficients; testing hypotheses—individual and joint; functional forms of regression models; qualitative (dummy) independent variables.

5. Violations of Classical Assumptions

Consequences, Detection and Remedies Multicollinearity; heteroscedasticity; serial correlation.

6. Specification Analysis

Omission of a relevant variable; inclusion of irrelevant variable; tests of specification errors.

Paper - : SEC-2: CONTEMPORARY ECONOMIC ISSUES

Course Description

The course seeks to familiarize the students with basic concepts related to some contemporary economic issues. Its aim is to equip the students with sufficient knowledge and skills so as to understand media discussions, and to critically analyze contemporary issues that figure in high-profile government documents, in particular, the Economic Survey and the Union Budget. Such capability is necessary to understand government policies and also to increase people's participation in economic decision-making. The course will also help to relate the theoretical frameworks of the Microeconomics and Macroeconomics courses to the Indian context, and to prepare students for the more detailed treatment of Indian economic issues in semesters V and VI. The emphasis in the course will be on conceptual understanding, not data.

Course Outline

1. Concepts

a. Fiscal policy, need for government spending, areas of government spending in India b. Capital expenditure, revenue expenditure, plan expenditure, non-plan expenditure. c. Deficits (fiscal, primary, revenue), impact of fiscal deficit on economy, need to control fiscal deficits, d. Paper --: ECONOMICS CORE COURSE 12: DEVELOPMENT ECONOMICS -I

Course Description

This is the first part of a two-part course on economic development. The course begins with a discussion of alternative conceptions of development and their justification. It then proceeds to aggregate models of growth and cross-national comparisons of the growth experience that can help evaluate these models. The axiomatic basis for inequality measurement is used to develop measures of inequality and connections between growth and inequality are explored. The course ends by linking political institutions to growth and inequality by discussing the role of the state in economic development and the informational and incentive problems that affect state governance.

Course Outline

1. Conceptions of Development

Alternative measures of development, documenting the international variation in these measures, comparing development trajectories across nations and within them.

2. Growth Models and Empirics

The Harrod-Domar model, the Solow model and its variants, endogenous growth models and evidence on the determinants of growth.

3. Poverty and Inequality: Definitions, Measures and Mechanisms

Inequality axioms; a comparison of commonly used inequality measures; connections between inequality and development; poverty measurement; characteristics of the poor; mechanisms that generate poverty traps and path dependence of growth processes.

4. Political Institutions and the Functioning of the State

The determinants of democracy; alternative institutional trajectories and their relationship with economic performance; within-country differences in the functioning of state institutions; state ownership and regulation; government failures and corruption.

(i) ECONOMICS OF HEALTH AND EDUCATION

Course Description

The importance of education and health in improving well-being is reflected in their inclusion among the Millennium Development Goals adopted by the United Nations

member states, which include among other goals, achieving universal primary education, reducing child mortality, improving maternal health and combating diseases. This course provides a microeconomic framework to analyze, among other things, individual choice in the demand for health and education, government intervention and aspects of inequity and discrimination in both sectors. It also gives an overview of health and education in India.

Course Outline

1. Role of Health and Education in Human Development

Importance in poverty alleviation; health and education outcomes and their relationship with macroeconomic performance.

2. Microeconomic Foundations of Health Economics

Demand for health; uncertainty and health insurance market; alternative insurance mechanisms; market failure and rationale for public intervention; equity and inequality.

3. Evaluation of Health Programs

Costing, cost effectiveness and cost-benefit analysis; burden of disease.

4. Health Sector in India: An Overview

Health outcomes; health systems; health financing.

5. Education: Investment in Human Capital

Rate of return to education: private and social; quality of education; signaling or human capital; theories of discrimination; gender and caste discrimination in India.

6. Education Sector in India: An Overview

Literacy rates, school participation, school quality measures.

Readings:

1. William, Jack, Principles of Health Economics for Developing Countries, World Bank Institute Development Studies, 1999.
2. World Development Report, Investing in Health, The World Bank, 1993.
3. Ronald G., Ehrenberg and Robert S., Smith, Modern Labor Economics: Theory and Public Policy, Addison Wesley, 2005.

(ii) APPLIED ECONOMETRICS

Course Description

The aim of this course is to provide a foundation in applied econometric analysis and develop skills required for empirical research in economics. Topics include specification and selection of regression models, dynamic econometric models, advanced methods in regression analysis and panel data models. Since the emphasis is on application of methods, this course requires understanding of econometric software and computing skills.

Course Outline

1. Stages in Empirical Econometric Research

2. Regression Diagnostics and Specification

Misspecification; functional forms; model selection.

3. Advanced Topics in Regression Analysis

Selected Topics:

Dynamic Econometric Models: distributed lag models; autoregressive models; instrumental variable estimation; simultaneous equation models.

4. Panel Data Models

Methods of estimation; fixed effects model; random effects model.

5. Introduction to Econometric Software Package

GRET; E-VIEWS; STATA (any one).

Readings:

1. Jeffrey M. Wooldridge, *Econometrics*, CENGAGE learning, India Edition, 2009.
2. Dimitrios Asteriou and Stephen Hall, *Applied Econometrics: A Modern Approach*, Palgrave Macmillan, 2007.
3. Damodar Gujarati, *Econometrics by Example*, Palgrave Macmillan, 2011.

(iii) ECONOMIC HISTORY OF INDIA (1857-1947)

Course Description

This course analyses key aspects of Indian economic development during the second half of British colonial rule. In doing so, it investigates the place of the Indian economy in the wider colonial context, and the mechanisms that linked economic development in India to the compulsions of colonial rule. This course links directly to the course on India's economic development after independence in 1947.

Course Outline

1. **Introduction: Colonial India:** Background and Introduction
Overview of colonial economy.
2. **Macro Trends**
National Income; population; occupational structure.
3. **Agriculture**
Agrarian structure and land relations; agricultural markets and institutions – credit, commerce and technology; trends in performance and productivity; famines.
4. **Railways and Industry**
Railways; the de-industrialisation debate; evolution of entrepreneurial and industrial structure; nature of industrialisation in the interwar period; constraints to industrial breakthrough; labor relations.
5. **Economy and State in the Imperial Context**
The imperial priorities and the Indian economy; drain of wealth; international trade, capital flows and the colonial economy – changes and continuities; government and fiscal policy.

(iv) TOPICS IN MICROECONOMICS - I

Course Description

Game theory is an integral part of modern economic analysis. Topics in Microeconomics- I introduces the students to elementary game theory under complete information. This course introduces the basic concepts of game theory in a way that allows students to use them in solving simple problems. The course will deal with the solution concepts for normal form and extensive form games along with a variety of economic applications.

Course Outline

1. Normal form games

The normal form; dominant and dominated strategies; dominance solvability; mixed strategies; Nash equilibrium; symmetric single population games; applications.

2. Extensive form games with perfect information

The game tree; strategies; subgame perfection; backward induction in finite games; commitment; bargaining; other applications.

(vi) INTERNATIONAL ECONOMICS

Course Description

This course develops a systematic exposition of models that try to explain the composition, direction, and consequences of international trade, and the determinants and effects of trade policy. It then builds on the models of open economy macroeconomics developed in courses 08 and 12, focusing on national policies as well as international monetary systems. It concludes with an analytical account of the causes and consequences of the rapid expansion of international financial flows in recent years. Although the course is based on abstract theoretical models, students will also be exposed to real-world examples and case studies.

Course Outline

1. Introduction

What is international economics about? An overview of world trade.

2. Theories of International Trade

The Ricardian, specific factors, and Heckscher-Ohlin models; new trade theories; the international location of production; firms in the global economy — outsourcing and multinational enterprises.

3. Trade Policy

Instruments of trade policy; political economy of trade policy; controversies in trade policy.

4. International Macroeconomic Policy

Fixed versus flexible exchange rates; international monetary systems; financial globalization and financial crisis.

(vii) PUBLIC ECONOMICS

Course Description

Public economics is the study of government policy from the points of view of economic efficiency and equity. The paper deals with the nature of government intervention and its implications for allocation, distribution and stabilization. Inherently, this study involves a formal analysis of government taxation and expenditures. The subject encompasses a host of topics including public goods, market failures and externalities. The paper is divided into two sections, one dealing with the theory of public economics and the other with the Indian public finances.

Course Outline

1. Public Economic Theory

- a. Fiscal functions: an overview.
- b. Public Goods: definition, models of efficient allocation, pure and impure public goods, free riding.
- c. Externalities: the problem and its solutions, taxes versus regulation, property rights, the Coase theorem.
- d. Taxation: its economic effects; dead weight loss and distortion, efficiency and equity considerations, tax incidence, optimal taxation.

2. Indian Public Finances

- a. Tax System: structure and reforms
- b. Budget, deficits and public debt
- c. Fiscal federalism in India

Paper –: ECONOMICS CORE COURSE 14: DEVELOPMENT ECONOMICS-II

Course Description

This is the second module of the economic development sequence. It begins with basic demographic concepts and their evolution during the process of development. The structure of markets and contracts is linked to the particular problems of enforcement experienced in poor countries. The governance of communities and organizations is studied and this is then linked to questions of sustainable growth. The course ends with reflections on the role of globalization and increase in international dependence on the process of development.

Course Outline

1. Demography and Development

Demographic concepts; birth and death rates, age structure, fertility and mortality; demographic transitions during the process of development; gender bias in preferences and outcomes and evidence on unequal treatment within households; connections between income, mortality, fertility choices and human capital accumulation; migration.

2. Land, Labor and Credit Markets

The distribution of land ownership; land reform and its effects on productivity; contractual relationships between tenants and landlords; land acquisition; nutrition and labor productivity; informational problems and credit contracts; microfinance; inter-linkages between rural factor markets.

3. Individuals, Communities and Collective Outcomes

Individual behavior in social environments, multiple social equilibria; governance in organizations and in communities; individual responses to organizational inefficiency.

4. Environment and Sustainable Development

Defining sustainability for renewable resources a brief history of environmental change; common-pool resources; environmental externalities and state regulation of the environment; economic activity and climate change.

5. Globalization

Globalization in historical perspective; the economics and politics of multilateral agreements; trade, production patterns and world inequality; financial instability in a globalized world.

(a) POLITICAL ECONOMY-II

Course Description

Employing perspectives from alternative schools of thought, this course explores the development of the structure and institutions of capitalist economies and their relationship to social and political forces. Students are expected to read some classic texts as well as more recent commentaries.

Course Outline

1. **Introduction and Historical Overview**
Perspective on political economy with a historical overview: Capitalist development in the pre Second World War period, the 'Golden Age' and later.
2. **Changing Dynamics of Capitalist Production, Organisational Form and Labour Process** Fordist and Post-Fordist production; The changing dynamics of organisation of production, markets and labour process; The changing nature of job security and labour rights.
3. **The State in the Era of Globalisation: Welfare, Development and Autonomy** Globalisation and the limits of the welfare state, development and state autonomy.
4. **The Changing Role of Finance** The changing role of finance in capital accumulation and corporate structure; Finance and globalisation - financialisation, financial liberalisation and financial crisis.
5. **The Social Dimension** Globalisation and uneven development – Growth, inequality and exclusion
6. **New Perspectives** Gender in work, accumulation and globalisation; Issues in environment and sustainability.

(b) COMPARATIVE ECONOMIC DEVELOPMENT (1850-1950)

Course Description

This course investigates selected issues in comparative historical perspective over the 19th century and the first few decades of the 20th century. The course focuses on a set of countries, which followed clearly diverse trajectories and patterns of growth to achieve their industrial transition and compares the outcomes of these diverse trajectories on sectoral change, inter-sectoral relations, labour processes and industrial relations and also compares the role of the state in facilitating the

respective trajectories.

Course Outline

- 1. Introduction and Overview of the countries selected for case studies: Britain, Japan, USSR.**
- 2. Agriculture**
Agrarian surplus and the role of the peasantry in economic development.
- 4. Industry**
The industrial revolution in Britain; Industrialisation in late industrialisers.
- 5. The Factory System and Making of the Industrial Working Class**
Division of labour, structure of industrial authority, organisation of work and industrial production, relationship between workers and managers.
- 6. The Role of the State in Industrial and Developmental Transition.**

(c) FINANCIAL ECONOMICS

Course Description

This course introduces students to the economics of finance. Some of the basic models used to benchmark valuation of assets and derivatives are studied in detail; these include the CAPM, and the Binomial Option Pricing models. The course ends with a brief introduction to corporate finance.

Course Outline

1. Investment Theory and Portfolio Analysis

a. Deterministic cash-flow streams

Basic theory of interest; discounting and present value; internal rate of return; evaluation criteria; fixed-income securities; bond prices and yields; interest rate sensitivity and duration; immunisation; the term structure of interest rates; yield curves; spot rates and forward rates.

b. Single-period random cash flows

Random asset returns; portfolios of assets; portfolio mean and variance; feasible combinations of mean and variance; mean-variance portfolio analysis: the Markowitz model and the two-fund theorem; risk-free assets and the one-fund theorem.

c. CAPM

The capital market line; the capital asset pricing model; the beta of an asset and of a portfolio; security market line; use of the CAPM model in investment analysis and as a pricing formula.

2. Options and Derivatives

Introduction to derivatives and options; forward and futures contracts; options; other derivatives; forward and future prices; stock index futures; interest rate futures; the use of futures for hedging; duration-based hedging strategies; option markets; call and put options; factors affecting option prices; put-call parity; option trading strategies: spreads; straddles; strips and straps; strangles; the principle of arbitrage; discrete processes and the binomial tree model; risk-neutral valuation.

3. Corporate Finance

Patterns of corporate financing: common stock; debt; preferences; convertibles; Capital structure and the cost of capital; corporate debt and dividend policy; the Modigliani-Miller theorem

(d) TOPICS IN MICROECONOMICS - II

Course Description

This course deals with repeated games and games with incomplete information. Ideas related to asymmetric information among the interacting economic agents would be the main focus of this course. Students learn the concept of Bayesian and Perfect Bayesian equilibrium. The course ends with the application of game theory to analyse moral hazard, adverse selection and signalling problems.

Course Outline

1. **Repeated Games.**
Finitely repeated games and backward induction; infinitely repeated games; history dependent strategies; one-step deviation property; the repeated prisoners' dilemma; idea of folk theorem.
2. **Simultaneous move games with incomplete information (Bayesian games).**
Strategies; Bayesian Nash equilibrium; auctions; other applications.
3. **Extensive form games with imperfect information.**
Strategies; beliefs and sequential equilibrium; applications.
4. **Evolutionary Games: Ideas of Evolutionary games, evolutionary stability; evolutionary stable strategy**

Readings:

1. Martin J. Osborne, *An Introduction to Game Theory*, Oxford University Press, New Delhi, 2004.

(e) ENVIRONMENTAL ECONOMICS

Course Description

This course focuses on economic causes of environmental problems. In particular, economic principles are applied to environmental questions and their management through various economic institutions, economic incentives and other instruments and policies. Economic implications of environmental policy are also addressed as well as valuation of environmental quality, quantification of environmental damages, tools for evaluation of environmental projects such as cost-benefit analysis and environmental impact assessments. Selected topics on international environmental problems are also discussed.

Course Outline

1. Introduction

What is environmental economics; review of microeconomics and welfare economics.

2. The Theory of Externalities

Pareto optimality and market failure in the presence of externalities; property rights and the coase theorem.

3. The Design and Implementation of Environmental Policy

Overview; pigouvian taxes and effluent fees; tradable permits; choice between taxes and quotas under uncertainty; implementation of environmental policy.

4. International Environmental Problems

Trans-boundary environmental problems; economics of climate change; trade and environment.

5. Measuring the Benefits of Environmental Improvements

Non-Market values and measurement methods; risk assessment and perception.

6. Sustainable Development

Concepts; measurement.

(f) MONEY AND FINANCIAL MARKETS

Course Description

This course exposes students to the theory and functioning of the monetary and financial sectors of the economy. It highlights the organization, structure and role of financial markets and institutions. It also discusses interest rates, monetary management and instruments of monetary control. Financial and banking sector reforms and monetary policy with special reference to India are also covered.

Course Outline

1. **Money**
Concept, functions, measurement; theories of money supply determination.
2. **Financial Institutions, Markets, Instruments and Financial Innovations**
 - a. Role of financial markets and institutions; problem of asymmetric information – adverse selection and moral hazard; financial crises.
 - b. Money and capital markets: organization, structure and reforms in India; role of financial derivatives and other innovations.
3. **Interest Rates**
Determination; sources of interest rate differentials; theories of term structure of interest rates; interest rates in India.
4. **Banking System**
 - a. Balance sheet and portfolio management.
 - b. Indian banking system: Changing role and structure; banking sector reforms.
5. **Central Banking and Monetary Policy**
Functions, balance sheet; goals, targets, indicators and instruments of monetary control; monetary management in an open economy; current monetary policy of India.

SYLLABUS

ENVIRONMENTAL STUDIES

Unit 1 : Multidisciplinary nature of environmental studies

Definition, scope and importance, need for public awareness. (2 lectures)

Unit 2 : Natural Resources :

Renewable and non-renewable resources :

Natural resources and associated problems.

- Forest resources : Use and over-exploitation, deforestation, case studies. Timber extraction, mining, dams and their effects on forest and tribal people.
- Water resources : Use and over-utilization of surface and ground water, floods, drought, conflicts over water, dams-benefits and problems.
- Mineral resources : Use and exploitation, environmental effects of extracting and using mineral resources, case studies.
- Food resources : World food problems, changes caused by agriculture and overgrazing, effects of modern agriculture, fertilizer-pesticide problems, waterlogging, salinity, case studies.
- Energy resources : Growing energy needs, renewable and non-renewable energy sources, use of alternate energy sources. Case studies.
- Land resources : Land as a resource, land degradation, man induced landslides, soil erosion and desertification.
 - Role of an individual in conservation of natural resources.
 - Equitable use of resources for sustainable lifestyles. (2 lectures)

Unit 3 : Ecosystems: Concept of an ecosystem, Structure and function of an ecosystem, Producers, consumers and decomposers, Energy flow in the ecosystem, Ecological succession, Food chains, food webs and ecological pyramids, Introduction, types, characteristic features, structure and function of the following ecosystems :

- Forest ecosystem, b) Grassland ecosystem, c) Desert ecosystem d) Aquatic ecosystems (ponds, streams, lakes, rivers, oceans, estuaries) (6 lectures)

Unit 4 : Biodiversity and its conservation

(8 lectures)

- Introduction - Definition : genetic, species and ecosystem diversity.
- Biogeographical classification of India
- Value of biodiversity : consumptive use, productive use, social, ethical, aesthetic and option values
- Biodiversity at global, National and local levels.
- India as a mega-diversity nation
- Hot-spots of biodiversity.
- Threats to bio diversity : habitat loss, poaching of wildlife, man-wildlife conflicts.
- Endangered and endemic species of India
- Conservation of bio diversity : In-situ and Ex-situ conservation of biodiversity.

Unit 5 : Environmental Pollution

(8 lectures)

Definition

- Cause, effects and control measures of:-
 - a) Air pollution
 - b) Water pollution
 - c) Soil pollution
 - d) Marine pollution
 - e) Noise pollution
 - f) Thermal pollution
 - g) Nuclear hazards
- Solid waste Management: Causes, effects and control measures of urban and industrial wastes.
- Role of an individual in prevention of pollution.
- Pollution case studies.
- Disaster management: floods, earthquake, cyclone and landslides.

Unit 6 : Social Issues and the Environment

(7 lectures)

From Unsustainable to Sustainable development, Urban problems related to energy, Water conservation, rain water harvesting, watershed management, Resettlement and rehabilitation of people; its problems and concerns. Case Studies, Environmental ethics: Issues and possible solutions, Climate change, global warming, acid rain, ozone layer depletion, nuclear accidents and holocaust. Case Studies, Wasteland reclamation, Consumerism and waste products, Environment Protection Act, Air (Prevention and Control of Pollution) Act, Water (Prevention and control of Pollution) Act, Wildlife Protection Act, Forest Conservation Act, Issues involved in enforcement of environmental legislation, Public awareness.

Unit 7 : Human Population and the Environment

(6 lectures)

Population growth, variation among nations, Population explosion - Family Welfare Programme, Environment and human health, Human Rights, Value Education, HIV/AIDS, Women and Child Welfare, Role of Information Technology in Environment and human health, Case Studies.

Unit 8 : Field work

Visit to a local area to document environmental assets river/ forest/grassland/hill/ mountain, Visit to a local polluted site-Urban/Rural/Industrial/Agricultural, Study of common plants, insects, birds, Study of simple ecosystems-pond, river, hill slopes, etc. (Field work Equal to 5 lecture hours)

COMMUNICATION: (ENGLISH/HINDI)

ABILITY ENHANCEMENT COURSE COMPULSORY

Paper 1: ENGLISH/MIL COMMUNICATION

English Communication – A, B and C Credits: 4

Preamble: The purpose of this course is to introduce students to the theory, fundamentals and tools of communication and to develop in them vital communication skills which should be integral to personal, social and professional interactions. One of the critical links among human beings and an important thread that binds society together is the ability to share thoughts, emotions and ideas through various means of communication: both verbal and non-verbal. In the context of rapid globalization and increasing recognition of social and cultural pluralities, the significance of clear and effective communication has substantially

enhanced.

The present course hopes to address some of these aspects through an interactive mode of teaching-learning process and by focusing on various dimensions of communication skills. Some of these are:

Language of communication, various speaking skills such as personal communication, social interactions and communication in professional situations such as interviews, group discussions and office environments, important reading skills as well as writing skills such as report writing, note-taking etc.

While, to an extent, the art of communication is natural to all living beings, in today's world of complexities, it has also acquired some elements of science. It is hoped that after studying this course, students will find a difference in their personal and professional interactions.

The recommended readings given at the end are only suggestive; the students and teachers have the freedom to consult other materials on various units/topics given below. Similarly, the questions in the examination will be aimed towards assessing the skills learnt by the students rather than the textual content of the recommended books.

The Communicative Language Course in English is a three-tiered structure, addressing different levels of language learning acquired in school. The three streams A, B and C are offered to students who have studied English up to class XII, class X and class VIII respectively.

1. **Introduction:** Theory of Communication, Types and modes of Communication
2. **Language of Communication:**
Verbal and Non-verbal (Spoken and Written) Personal, Social and Business Barriers and Strategies Intra-personal, Inter-personal and Group communication
3. **Speaking Skills:**
Monologue, Dialogue, Group Discussion, Effective Communication/ Mis-Communication, Interview, Public Speech
4. **Reading and Understanding**
Close Reading, Comprehension, Summary Paraphrasing, Analysis and Interpretation
Translation (from Indian language to English and vice-versa) Literary/Knowledge Texts
5. **Writing Skills**
Documenting, Report Writing, Making notes, Letter writing

Recommended Readings*:

Business English: Editorial Board, Department of English, University of Delhi. Pearson, 2008. *Other available books relevant to the course may be consulted. These readings may be used for all the three streams, and pitched at different levels to address the three learning levels respectively.

GENERIC ELECTIVE

GE-1. (A) INTRODUCTORY MICROECONOMICS (DEPT. OF ECONOMICS)

(Only for B.Com. (H) Students)

Course Objective

This course is designed to expose the students to the basic principles of microeconomic theory. The emphasis will be on thinking like an economist and the course will illustrate how microeconomic concepts can be applied to analyze real-life situations.

Course Learning Outcomes

The course introduces the students to the first course in Economics from the perspective of individual decision making as consumers and producers. The students learn some basic principles of microeconomics, interactions of supply and demand and characteristics of perfect and imperfect markets.

Unit 1

Introduction What is microeconomics? Scope and method of economics; the economic problem: scarcity and choice; the concept of opportunity cost; the question of what to produce, how to produce and how to distribute output; science of economics; Institutions for allocating resources; the basic competitive model; prices, property rights and profits; incentives and information; rationing; positive versus normative analysis. The Scientific method; the role of assumptions; models and mathematics; why economists sometimes disagree. Interdependence and gains from trade; specialisation and trade; absolute advantage; comparative advantage and trade

Unit 2

Supply and demand: Markets and welfare Markets and competition; determinants of individual demand/supply; demand/supply schedule and demand/supply curve; market versus individual demand/supply; shifts in the demand/supply curve, demand and supply together; how prices allocate resources; elasticity and its application; controls on prices; taxes and the costs of taxation; consumer surplus; producer surplus and the efficiency of the markets. GE-2. (A) INTRODUCTORY MACROECONOMICS (Dept. of Economics) (Only for B.Com. (H) Students)

Course Objective

This course aims to introduce the students to the basic concepts of Macroeconomics. Macroeconomics deals with the aggregate economy. This course discusses the preliminary concepts associated with the determination and measurement of aggregate macroeconomic variable like GDP, savings, investment, money, inflation, and the balance of payments. It also introduces students to simple analytical frameworks (e.g., the IS-LM model) for determination of equilibrium output.

Course Learning Outcomes

This course will allow students to understand the basic functioning of the macroeconomy.

Unit 1

Introduction to macroeconomics and national income accounting Basic issues studied in macroeconomics; measurement of gross domestic product; income,

expenditure and the circular flow; real versus nominal GDP; price indices; national income accounting for an open economy; balance of payments: current and capital accounts

Unit 2

Money Functions of money; quantity theory of money; determination of money supply and demand; credit creation; tools of monetary policy

Unit 3

Inflation Inflation and its social costs; hyperinflation

Unit 4

The closed economy in the short run Classical and Keynesian systems; simple Keynesian model of income determination; IS-LM model; fiscal and monetary multipliers

Assessment Methods

Internal assessment and final examination as per CBCS rules

Keywords

GDP, BOP, money, inflation, classical model, Keynesian model

GE-2. (A) ENTREPRENEURSHIP (Dept. of Commerce)

(Only for B.A. (H) Economics Students)

Course Objective

The course aims at imparting basic knowledge on entrepreneurship and new enterprise creation so as to provide an opportunity to students to opt for entrepreneurship as an alternative career option as well as provide opportunity towards greater exposure to entrepreneurial process through hands-on training.

Course Learning Outcomes

After completing the course, the student shall be able to:

CO1: understand entrepreneurship as volition in context of India.

CO2: gather knowledge and ideas on the existing support system for entrepreneurial orientation.

CO3: understand enterprise formation process for gaining ideas as to creation of an enterprise for pursuing a career.

CO4: understand requirements of post-enterprise creation for effective operation of the business.

CO5: gain knowledge on available growth strategies for implementing effective suitable strategy for expansion and growth.

Course Contents

Unit I: Introduction

Entrepreneurship- meaning and importance, entrepreneurship in Indian context, entrepreneurship as a creative solution provider, meaning of various terms related to entrepreneurship- intrapreneurship, social entrepreneurship, net entrepreneurship, technopreneurship.

Unit II: Entrepreneurial Eco-System

Socio-economic support system for entrepreneurship; Public and private system of stimulation; Role of development institutes, availability of finance, marketing, technology and project related assistance; Role of trade associations and self-help groups for promotion of entrepreneurship; Types of business entities- micro, small and medium enterprises, role of MSME sector in Indian economy family businesses in India; Conflicts in family business; Startup Action Plan; Make in India initiative.

Unit III: Enterprise Formation Process

Understanding and analyzing business opportunities, market demand analysis, project feasibility study; preparation of business plan; Start ups and basic start ups problems, sources of financing business start ups; Cases of Indian start ups (practical knowledge on preparation of business plan/project report shall be imparted).

Unit IV: Managerial Aspects of Business

Managing finance- preparation of operating/cost budget, cash budget; Understanding management of short term and long term capital; Human resource planning; Contract management; Understanding marketing methods; Understanding of GST and other tax compliances.

Unit V: Managing Growth

Business growth strategies specific to small enterprises; Enterprise life cycle and various growth strategies; Business collaboration and outsourcing of resources; Network management; Succession planning for sustenance.

Practical

Visit to new enterprise for securing ideas and knowledge on enterprise creation process and effecting an interaction with the entrepreneur is an essential requirement for learners for ensuring the propensity of entrepreneurial orientation among the students.

GE- 2(B): FINANCE FOR NON-FINANCE EXECUTIVES (Dept. of Commerce) (Only for B.A. (H) Economics Students)

Course Objective

To familiarize non-finance executives with the basic concepts of finance.

Course Learning Outcomes

After completing the course, the student shall be able to:

CO1: understand the overview of finance, concept of time value of money as well as concept of risk & return

CO2: learn financial analysis with the aid of various financial statements & analyze capital budgeting process and techniques.

CO3: analyze cost of capital, capital structure and leverage

CO4: examine dividend & working capital dividend decisions

CO5: perform valuation of securities

Course Contents

Unit: I Introduction

Meaning and importance of Finance. Time Value of money (Compounding & Discounting), Risk & Return. Alternative investment options, Sources of Long term financing and short term financing.

Unit: II Financial Analysis & Capital Budgeting

Types of Financial Statements- Income Statement, Balance Sheet, Ratio Analysis: Meaning, Significance and Limitations. Current Ratio, Quick Ratio, Absolute Liquidity Ratio, Debt-Equity Ratio, Interest Coverage Ratio, Inventory Turnover Ratio, Debtors Turnover Ratio, Average Collection Period, Creditors Turnover Ratio, Average Payment Period, Return on Capital Employed, Earning Per Share, Dividend Per Share. Capital Budgeting Process, Capital Budgeting Techniques (Pay Back Period, Discounted payback period, NPV, IRR).

Unit: III Cost of Capital & Capital Structure

Concept of Cost of Capital and Capital Structure: Cost of Debt Capital, Cost of Preference Share Capital, Equity Share Capital, Weighted Average Cost of Capital (WACC). Meaning of Leverage. Operating Leverage, Financial Leverage, Combined Leverage.

Unit: IV Dividend Decisions & Working Capital

Types of Dividends, Dividend policies and factors affecting dividend policies. Concept of Working Capital, its components and Factors affecting working capital requirements. Contemporary issues in Finance

Unit: V Valuation of Securities

Types of Risks and Returns. Concept of Valuation, Equity Valuation & Analysis, Bond Valuation & Analysis. Portfolio Analysis

Teaching Learning Process

As the course is designed To familiarize non finance executives with the essentials of finance, the teaching learning process will be based on lectures, project work/field work and cases studies

Assessment Methods

The assessment of the students must be aligned with the course learning outcomes and requires Class Participation, Class Test, Assignment, Project Work/field work, End Semester Examination

Keywords

Time Value of Money, Risk, Return, Financial Statements, Financial Ratio Analysis, Capital Budgeting.

GE-2. (C) LINEAR ALGEBRA (Dept. of Mathematics)

Examination 3 hrs.

Five Lectures per week + Tutorial as per University rules

Max. Marks 100 (including internal assessment)

UNIT-I

Fundamental operation with vectors in Euclidean space R^n , Linear combination of vectors, Dot product and their properties, Cauchy Schwarz inequality, Triangle inequality, Projection vectors, Some elementary results on vector in R^n , Matrices, Gauss–Jordan row reduction, Reduced row echelon form, Row equivalence, Rank, Linear combination of vectors, Row space, Eigenvalues, Eigenvectors, Eigenspace, Characteristic polynomials, Diagonalization of matrices, Definition and examples of vector space, Some elementary properties of vector spaces, Subspace.

UNIT-II

Span of a set, A spanning set for an eigenspace, Linear independence and linear dependence of vectors, Basis and dimension of a vector space, Maximal linearly independent sets, Minimal spanning sets, Application of rank, Homogenous and non homogenous systems of equations, Coordinates of a vector in ordered basis, Transition matrix, Linear transformations: Definition and examples, Elementary properties, The matrix of a linear transformation, Linear operator and Similarity.

UNIT-III

Application: Computer graphics- Fundamental movements in a plane, Homogenous coordinates, Composition of movements, Kernel and range of a linear transformation, Dimension theorem, One to one and onto linear transformations, Invertible linear transformations, Isomorphism: Isomorphic vector spaces (to R^n), Orthogonal and orthonormal vectors, Orthogonal and orthonormal bases, Orthogonal complement, Projection theorem (Statement only), Orthogonal projection onto a subspace, Application: Least square solutions for inconsistent systems.

MONEY AND BANKING

Objective: This course exposes students to the theory and functioning of the monetary and financial sectors of the economy. It highlights the organization, structure and role of financial markets and institutions. It also discusses interest rates, monetary management and instruments of monetary control. Financial and banking sector reforms and monetary policy with special reference to

India are also covered.

Unit I: Money

Concept, functions, measurement; theories of money supply determination.

Unit II: Financial Institutions, Markets, Instruments and Financial Innovations

- a. Role of financial markets and institutions; problem of asymmetric information – adverse selection and moral hazard; financial crises.
- b. Money and capital markets: organization, structure and reforms in India; role of financial derivatives and other innovations.

Unit III: Interest Rates

Determination; sources of interest rate differentials; theories of term structure of interest rates; interest rates in India.

Unit IV: Banking System.

- a. Balance sheet and portfolio management.
- b. Indian banking system: Changing role and structure; banking sector reforms.

Unit V: Central Banking and Monetary Policy

Functions, balance sheet; goals, targets, indicators and instruments of monetary control; monetary management in an open economy; current monetary policy of India.

ENVIRONMENTAL ECONOMICS

Objective: This course introduces students to concepts, methods and policy options in managing the environment using tools of economic analysis. This course should be accessible to anyone with an analytical mind and familiarity with basic concepts of economics. Since several environmental problems are caused by economic activity (for instance, carbon emissions, over-harvesting of renewable resources and air and water pollution as a by-product of industrial activity), this course examines different approaches to adjusting behaviour through economic institutions such as markets and incentives as well as through regulation, etc. It also addresses the economic implications of environmental policies through practical applications of methods for valuation of environmental goods and services and quantification of environmental damages. Conversely, the impact of economic growth on the environment is also addressed under the rubric of sustainable development. Environmental problems and issues from the Indian and international

context (especially global warming) are used to illustrate the concepts and methods presented in the course. The course will be useful for students aiming towards careers in the government sector, policy analysis, business, journalism and international organisations.

Unit I: Introduction

Key environmental issues and problems, economic way of thinking about these problems, basic concepts from economics; Pareto optimality and market failure in the presence of externalities; property rights and other approaches.

Unit II: The Design and Implementation of Environmental Policy

Overview, Pigouvian taxes and effluent fees, tradable permits, implementation of environmental policies in India and international experience; transboundary environmental problems; economics of climate change.

Unit III: Environmental Valuation Methods and Applications

Valuation of non-market goods and services-theory and practice; measurement methods; cost-benefit analysis of environmental policies and regulations.

Unit IV: Sustainable Development

Concepts; measurement; perspectives from Indian experience

GE-3. (A) PROJECT MANAGEMENT

(Only for B.A. (H) Economics Students)

Objective: To enable the student to evolve a suitable framework for the preparation, appraisal, monitoring and control and hedge risk of industrial project.

Unit I: Introduction

Objectives of Project Planning, monitoring and control of investment projects. Relevance of social cost benefit analysis, identification of investment opportunities. Pre-feasibility studies.

Unit II: Project Preparation

Technical feasibility, Marketing Feasibility and Technical Feasibility, estimation of

costs, demand analysis and commercial viability, risk analysis, collaboration arrangements; financial planning; Estimation of fund requirements, sources of funds. Loan syndication for the projects. Tax considerations in project preparation and the legal aspects.

Unit III: Project appraisal

Business criterion of growth, liquidity and profitability, social cost benefit analysis in public and private sectors, investment criterion and choice of techniques. Estimation of shadow prices and social discount rate.

Unit IV: Issues in Project Planning and Management

Cost and Time Management issues in Project planning and management.

GE-3. (C) DIFFERENTIAL EQUATIONS (Dept. of Mathematics)

Examination 3 hrs.

Five Lectures per week + Tutorial as per University rules

Max. Marks 100 (including internal assessment)

UNIT-I

First order ordinary differential equations: Basic concepts and ideas, Exact differential equations, Integrating factors, Bernoulli equations, Orthogonal trajectories of curves, Existence and uniqueness of solutions, Second order differential equations: Homogenous linear equations of second order, Second order homogenous equations with constant coefficients, Differential operator, Euler Cauchy equation

UNIT-II

Existence and uniqueness theory, Wronskian, Nonhomogenous ordinary differentialequations, Solution by undetermined coefficients, Solution by variation of parameters, Higher order homogenous equations with constant coefficients, System of differential equations, System of differential equations, Conversion of nth order ODEs to a system, Basic concepts and ideas, Homogenous system with constantcoefficients.

UNIT-III

Power series method: Theory of power series methods, Legendre's equation, Legendre polynomial, Partial differential equations: Basic Concepts and definitions, Mathematical problems, First order equations: Classification, Construction, Geometrical interpretation, Method of characteristics, General solutions of first

order partial differential equations, Canonical forms and method of separation of variables for first order partial differential equations, Classification of second order partial differential equations, Reduction to canonical forms, Second order partial differential equations with constant coefficients, General solutions.

GE-3. (E) UNITED NATIONS AND GLOBAL CONFLICTS

(Dept. of Political Science)

Course Objective: This course provides a comprehensive introduction to the most important multilateral political organization in international relations. It provides a detailed account of the organizational structure and the political processes of the UN, and how it has evolved since 1945, especially in terms of dealing with the major global conflicts. The course imparts a critical understanding of the UN's performance until now and the imperatives as well as processes of reforming the organization in the context of the contemporary global system.

GE-3(F): HEALTH EDUCATION, ANATOMY AND PHYSIOLOGY

Theory

Unit-I: Health Education

- 1.1 Health Education: Meaning, Concept and Principles
- 1.2 Health – Importance, Components, Health Promoting Behaviours
- 1.3 Role of Personal Hygiene, Mental Hygiene, Sleep Hygiene, Occupational Hygiene in physical education and sports
- 1.4 Role of Different Agencies in Promoting Health (WHO, UNICEF, Local Bodies)

Unit II: Anatomy and Physiology

- 2.1 Basic Concept, Need and Importance of Anatomy and Physiology in Physical Education
- 2.2 Definition and Description of Cell, Tissue, Organ and System
- 2.3 Brief Introduction to Skeletal System, Muscular System, Circulatory System, Respiratory System, Digestive System, Excretory System, Nervous System and Endocrine System
- 2.4 Physiological Factors Affecting Development of Physical Fitness Components

Unit-III: Training Effects on Anatomical and Physiological Systems

- 3.1 Effects of Exercise on Skeletal System, Muscular System, Circulatory System, Respiratory System, Digestive System, Excretory System, Nervous System and Endocrine System
- 3.2 Concepts of Warming-up, Conditioning, Cooling-down
- 3.3 Concepts of Fatigue, Stitch, Cramp, Oxygen Debt, Second Wind
- 3.4 Markers for Training Effects - Maximum Heart Rate, Vital Capacity, Stroke Volume, Temperature Regulation, Lactate Threshold and VO_2 max.

Practical

1. Asanas with Therapeutic Value (Any five asanas): Karnapeedasana, Padmasana, Dhanurasana, Sarvangasana, Paschimottanasana, Chakrasana, Halasana,

-
-
- Matsyasana, Ardhmatsyendrasana, Usthrasana, Mayurasana, Shirshasana, Vajrasana
 2. Draw and label any five anatomical and physiological systems.
 3. Demonstrate Warming-up /Conditioning /Cooling-down exercises.

ECONOMIC HISTORY OF INDIA 1857-1947

Objective: This course analyses key aspects of Indian economic development during the second half of British colonial rule. In doing so, it investigates the place of the Indian economy in the wider colonial context, and the mechanisms that linked economic development in India to the compulsions of colonial rule. This course links directly to the course on India's economic development after independence in 1947.

Unit I: Introduction: Colonial India: Background and Introduction

Overview of colonial economy.

Unit II: Macro Trends

National Income; population; occupational structure.

Unit III: Agriculture

Agrarian structure and land relations; agricultural markets and institutions – credit, commerce and technology; trends in performance and productivity; famines.

Unit IV: Railways and Industry

Railways; the de-industrialisation debate; evolution of entrepreneurial and industrial structure; nature of industrialisation in the interwar period; constraints to industrial breakthrough; labor relations.

Unit V: Economy and State in the Imperial Context

The imperial priorities and the Indian economy; drain of wealth; international trade, capital flows and the colonial economy – changes and continuities; government and fiscal policy.

GE-4. (C) ELEMENTS OF ANALYSIS (Dept. of Mathematics)

Unit I

Finite and infinite sets examples of countable and uncountable sets. Real line; absolute value bounded sets suprema and infima, statement of order Completeness property of \mathbb{R} , Archimedean property of \mathbb{R} , intervals. Real sequences, Convergence, sum and product of convergent sequences, proof of convergence of some simple sequences such as $(-1)^n/n$, $1/n^2$, $(1+1/n)^n$, x^n with $|x| < 1$, a/n , where a is a bounded sequence. Concept of cluster points and statement of Bolzano Weierstrass'

theorem. Statement and illustration of Cauchy convergence criterion for sequences. Cauchy's theorem on limits, order preservation and squeeze theorem, monotone sequences and their convergence.

Unit II

Definition and a necessary condition for convergence of an infinite series. Cauchy convergence criterion for series, positive term series, geometric series, comparison test, limit comparison test, convergence of p-series, Root test, Ratio test, alternating series, Leibnitz's test. Definition and examples of absolute and conditional convergence.

Unit III

Definition of power series: radius of convergence, Cauchy-Hadamard theorem, statement and illustration of term-by-term differentiation and integration of power series. Power series expansions for $\exp(x)$, $\sin(x)$, $\cos(x)$, $\log(1+x)$ & their properties.

GE-4. (E) WOMEM, POWER AND POLITICS (Dept. of Political Science)

Course objective: This course opens up the question of women's agency, taking it beyond 'women's empowerment' and focusing on women as radical social agents. It attempts to question the complicity of social structures and relations in gender inequality. This is extended to cover new forms of precarious work and labour under the new economy. Special attention will be paid to feminism as an approach and outlook. The course is divided into broad units, each of which is divided into three subunits.

I. Groundings (6 weeks)

1. Patriarchy (2 weeks)
 - a. Sex-Gender Debates
 - b. Public and Private
 - c. Power
2. Feminism (2 weeks)

GE – 4(F): POSTURE, ATHLETIC CARE AND FIRST AID

Theory

Unit I: Postures

- 1.1 Posture – Concept, Significance, Benefits
- 1.2 Bad Posture (Sitting, Standing, Walking, Lying down); Effects of Bad Posture on Our Body
- 1.3 Postural Deformities – Types and Causes (Kyphosis, Scoliosis, Lordosis, Knock Knees, Bow Legs, Flat Foot), Corrective Exercises
- 1.4 Illnesses due to Improper Posture (Back Pain, Neck Pain), Corrective Exercises

Unit-II: Athletic Care

- 2.1 Sports Medicine and Athletic Care - Concept and Significance, Factors causing Injuries
- 2.2 General Principles of Prevention of Injuries
- 2.3 Common Sports Injuries (Strain and Muscle and Ligament Sprain, Frozen Shoulder, Lower Back Strain, Tennis and Golfer's Elbow, Runner's Knee, Shin Pain, Blister, Concussion, Abrasion, Laceration, Haematoma, Fracture, Dislocation)
- 2.4 Management of Injuries (Strain and Muscle and Ligament Sprain, Frozen Shoulder, Lower Back Strain, Tennis and Golfer's Elbow, Runner's Knee, Shin Pain, Blister, Concussion, Abrasion, Laceration, Haematoma, Fracture, Dislocation)

Unit-III: First Aid, Ergogenic Aids and Rehabilitation

- 2.1 Sports Injuries and First Aid (P.R.I.C.E.)
- 2.2 Rehabilitation - Aim and Objective, Recovery (Ice bath, Contrast Bath, Hot Fomentation)
- 2.3 Therapeutic Modalities (Therapeutic Ultrasound, Interferential Therapy Unit, T.E.N.S., Infrared Lamp, Wax Bath, Short Wave Diathermy)
- 2.4 Muscle Strengthening through Active and Passive Exercise

Part B: Practical

1. Demonstrate Stretching and Strengthening Exercises for Kyphosis, Scoliosis, Lordosis, Knock Knees, Bow Legs, Flat Foot, Back Pain and Neck Pain

2. Illustration and Demonstration of Active and Passive Exercises
3. Asanas with Therapeutic Value (Any five asanas): Karnapeedasana, Padmasana, Dhanurasana, Sarvangasana, Paschimottanasana, Chakrasana, Halasana, Matsyasana, Ardhamatsyendrasana, Usthrasana, Mayurasana, Shirshasana, Vajrasana
4. Practice P.R.I.C.E. in First Aid.
