

E-resources from National Digital Library of India (NDL India)

Ministry of Human Resource Development (MHRD) under its National Mission on Education through Information and Communication Technology (NMEICT) has initiated the National Digital Library of India (NDL India) pilot project to develop a framework of virtual repository of learning resources with a single-window search facility.

This virtual repository would be useful to students to prepare for their exam during the lock down period from their home. The library contains more than 6 lakhs full text books plus video, question papers and their solutions for different courses.

The link for NDL, though sent earlier also, is being sent again on the recommendation of COVID TASK FORCE with a request to put the link on your college website and also inform all teachers and students about it.
